VOLUME 6 ISSUE 1

TRADE TOKEN TOPICS

MONTHLY PUBLICATION FOR TRADE TOKEN COLLECTORS

MERCHANT TOKEN

COLLECTORS ASSOCIATION

TTT is the official publication of the Merchant Token Collectors Association and is published monthly in Seattle, Washington. Mailing address: 1416 Third Ave., Seattle, Washington, 98101. Bary D. Bender, Editor-Publisher.

Trade Token Topics will be mailed on the first of each month to all members of METCA. Dues will be \$7.50 per calendar year. Every member of METCA is entitled to a free ad of four lines in each issue provided it is different each time.

Display Advertising Rates Per Issue: Full page - \$12.00

Full page - \$12.00 Half page - \$ 7.50 Quarter page - \$ 4.00

Ads placed for three issues or more will receive a 20% discount. Yearly and half-year rates will receive a 25% discount. Make all checks and money orders payable to METCA 1416 Third Ave., Seattle, Wash. 98101. Deadline for all copy is the 20th of each month preceeding issue. Please make all correspondence legible. The publisher does not accept responsibility for any correspondence mailed to any address other than this one.

January marks the tenth anniversary of Northwest Token and Medal Society, Seattle trade token and medal club, founded by Clarence Heppner on the Fourth of January, 1967. Meeting on the first Wednesday of each month, the club has token displays, auctions, and the all the atmosphere necessary for a nice fellowship of token and medal aficionados. Members include Byron Johnson - former president of TAMS and presently ANA Board of Governor; Clarence E. Heppner - former AVA vice-president and present Washington state token collector; Glen Rome - present club president and ANA district rep. and collector of Montana tokens; George Gould - Montana collector and cataloguer; Bob Keck - Washington state and Seattle collector of tokens; Jack Meeker - collector of eagles on tokens; Lew Egnew - Washington state and western U.S.A. token collector; Tom Sheehan - bank, scrip and clearinghouse certificate collector; Al Nystrom - wooden money collector; and Bary Bender - southeast Washington state token collector, horsecar collector, and editor and publisher of TTT.

Have proof read many of George Gould's pages on Montana trade checks this past year and have found it to be very interesting. I think you will find his catalog on Montana trade tokens quite different from previously published books on trade checks. I hope that 1977 brings forth a muchneeded book on Montana "money of the merchants". You can do much to expedite this project by cooperating with his requests for rubbings, photos, and information.

Ray Nadreau spent a few days in the hospital in December. I don't know if it was a coincident or not, but his hospitalization occurred the day after he did some trouble-shooting for me on METCA printing problems. Ray has been very patient with me as I learn the myriad printing aspects involved in getting TTT out each month. Get well, Ray, I'm afraid I'll be bothering you again.

Read the article on advance orders for the 1977 Supplement to Atwood's Catalogue on page 150 of November, 1976, The Fare Box.

Read about the Utah La-Vecturist And Token Collectors Organization (ULATCO) on page 150 of November, 1976, The Fare Box.

Read about the Colorado Token Book on page 219 of December, 1976, TAMS Journal.

Happy New Year to all of you from METCA. Trust the new year to come will bring each and every one of you rich blessings, good health, much success and new token discoveries. Many thanks to all of you for your support of METCA.

Received sad news from fellow collector, John W. Byars, Jr., of the death of Texas collector, Harry Strough, METCA #222.

John as did many of METCA's, TAM's, and AVA's members had a deep respect for Harry as a person and collector. Those who knew and dealt with Harry over the years will miss him greatly.

One of the gratifying aspects of being a collector and editor is hearing from members like Harry and the fellowship we share. When Harry rejoined METCA I could sense the warmness others have likened to him just by the kind words and warm regards he expressed to me. Harry Leslie Strough, age 64, will be greatly missed by all of us.

Those of you who know of token collectors who would like to join METCA contact me at 1416 Third Avenue, Seattle, Washington 98101, or refer them to item 120 in Goin World. To those of you who have been former METCA members whom I've been unable to locate due to address changes, etc., please accept my apology. I appreciate those of you who have sent lists of persons who might be interested in METCA.

Clarence Heppner, Washington state token collector, had his place of business burgularized Friday evening, December 11, 1976, while we attended the Seattle Sonics - Golden State basketball game. Among the items stolen were all his Washington state trade checks, approximately 350, that were not in his "town book" (which houses one token from each town in the state that he has). This was Hepp's "second-time-around" collection after having sold out his major collection over a year ago. Right now Hepp is wondering if his third try will be a charm or not!

This co-operation by fellow collectors in furnishing cataloguers with rubbings, information, etc., can not be overstated. Your help will be greatly appreciated by many of those doing this much-needed research for catalog effort:

Lloyd E. Wagaman - Indiana
John Mutch - Idaho

Terry Trantow - Lumber and Logging Company Tokens

Charles E. Kirtley and Jerry R. Roughton - North Carolina

Hal Birt, Jr. - Arizona

Lee Nott and Jim Wright - Colorado George F. Gould - Montana

Others

I received word from John Mutch, Idaho cataloguer, that he presently has over 700 mavericks that will be made available in Trade Token Topics hopefully for the April issue. He will have more, however, further research is necessary for the remainder. Those of you who can contribute to John's efforts please write him at 3726 Buckingham Ct., Boise, Idaho 83704. Kendall Ballard and Mike Fritz are two collectors John has mentioned to me as cooperating to their fullest extent.

Charles E. Kirtley and Jerry R. Roughton are in the process of writing a book on all types of North Carolina tokens and would be grateful if fellow collectors would send rubbings, both obverse and reverse, and furnish any additional information about the token(s) such as type, metal and size. Jerry and Charles would like to hear from anyone owning North Carolina tokens.

Write: Jerry R. Roughton - 2002 Carpenter St., Greensboro, North Car. 27403

Coal Scrip Once Miners' Credit

R.R.TIPPY

Webster defines the word HOBBY as a subject that a person constantly talks about or returns to; something that a person likes to do or study in his spare time; or a favorite pastime or avocation. Look as hard as. you will not find where Webster defines the word SCRIPTOR. Hopefully, some day the dictionary will define the word "scriptor" as a person who collects scrip and falls in one or more of the categories above.

What is scrip and how was it used? Some people have the mis-conception that scrip is only paper and perhaps associate it with the depression years. Scrip may be paper or metal and actually metal tokens are more prominent; in

fact, some avid collectors do not even collect the paper variety.

Metal tokens were referred to by different names that may have been peculiar to a particular geographical region. For example, in some areas they were referred to as "flickers", coal field money, light weight, doo lolly, etc., but the most common name is scrip. In this article the word scrip is referring only to the metal token that was used by the coal miner.

Commissary checks or scrip are, in essence, credit tokens and fundamentally were used as follows: An employee of the coal company who desired credit at the Company Store could request issue of scrip against work performed or work to be performed. The scrip so issued would be charged against the employee's payroll account, and its face value would be deducted from the amount due him for work performed on the following pay day. The scrip would then be spent at the commissary for merchandise.

This medium of exchange attained a certain amount of general circulation in the immediate neighborhood of the commissary, since it could be redeemed, in merchandise, upon presentation at the commissary by any bearer. For example, a miner in immediate need of cash might draw scrip at the mine office in face value of say \$10, and subsequently sell to a third party for cash at a negotiated discount; or he might use to barter for goods or property with the local merchants, fellow employee, etc.

The use of scrip has been discontinued by practically all coal mining companies. Its demise depends upon the geographical areas, for example, in the midwest the period was in the 1920s or perhaps early 1930s, whereas in the Appalachian area states it made its exit in the mid-forties and up to the very early 1950s.

The use of scrip has been attacked from many sides. It may be remembered that Eleanor Roosevelt, during her humanitarian crusades, attacked the use of scrip as an evil thing. The Treasury Department has always considered it a thorn in its side and the United Mine Workers Union opposed its promiscuous use.

Scrip History

The private use of scrip and token money probably came to this land with the White man. The use of coal scrip was initiated for a number of reasons including the remoteness of the coal operator with few alternatives.

First, it was necessary to run a spur railroad line, which particularly in the mountain areas, was the only method of transportation to and from the coal camp. Since there was no housing it was necessary for the coal company to build housing. There was no local store and thus the birth of the Commissary or the Company Store, in order that the miner and his family could obtain the necessities of life.

Therefore, it may be said that the coal company got into the store business out of necessity; however, it did not take them long to recognize a good thing. Almost without exception, the commissary carried the very best brands of merchandise and charged accordingly - yes, their prices were normally very high.

Often times the coal company actually made more off their store operation than they did in the operation of the coal mine. Since in many instances these operations were not too close to the nearest bank, it was most impractical for all parties concerned to barter with U.S. currency. It should also be pointed out that there were a number of payroll robberies, and I can remember as a young man one of these robberies, and to the best of my knowledge, the payroll has not been recovered to this day.

The combination of all these circumstances historically resulted in scrip actually being born out of necessity and later becoming one of convenience. During the heyday of the old company town, scrip circulated so freely that

it was indeed the coin of the realm.

Tokens are of various shapes and sizes - round, square, egg shape, scalloped, hexagonal, octagonal, etc. They are of various metallic alloys with the most common being brass and normally were in the denominations of one cent through the dollar. This type of token very frequently had "cutouts" or punches; their purpose being primarily for identification - reflecting the initials of the company, their trade mark, and in some instances the number of the mine.

During World War II the scarcity of metals resulted in some scrip being made of plastic type material. There were a number of companies that manufactured scrip, the two largest being located in Cincinnati and Dayton, Ohio. The Osborne Register Company, the successor to Murdoch, and prior to the demise of scrip practically dominated the field of scrip manufacturers,

since it absorbed many of their competitors.

The reason that the Osborne Register Company with their trade mark ORCO was so successful was primarily due to their invention of the scrip machine. This machine was invented by Wiley Osborne, a native of Wise, VA. and for many years retired and living in Florida. After many many efforts by this talented gentleman he finally built a prototype that met his rather rigid specifications. This machine, which incidentally is a collector's item, resembles to a degree the present day coin changer machine and somewhat revolutionized the issuance of scrip. As a young man Osborne was an engineer for a coal company in eastern Kentucky and each day when he would come out of the mine he observed long long lines of coal miners at the scrip writers window. The issuance of scrip was a lengthy and primarily a manual operation and he decided there must be a better way. He quit his job at the mine, mustered up all the finances he could and moved to Cincinnati to make his fortune - which he did.

This basic credit and bookkeeping system ultilized 2% x 5% cards corr-

esponding to similar cards in the scrip writer's file.

When drawing, the cards were matched, inserted in the machine and the exact amount desired was released automatically. The amount was printed on each card opposite the date.

At the end of the pay period, the total was found and that amount posted as a deduction to theminers statement. It was not unusual for deductions to exceed the amount of earnings and thus result in an overdraft. Thus, the words "owe my soul to the company store" was more than just words in a song.

The Orco machine would only work with Osborne Manufactured scrip and this coupled with the fact that there was a guarantee against counterfeiting resulted in a most profitable endeavor. Since the names of the manufacturer usually appear on the reverse side of the token, it is easy to identify. As the collector advances in his collecting he collects not only by the name and denomination of the coal company but also by the manufacturer. A guide has been developed for this purpose called Scripdent.

Collecting Tips

It is a safe assumption that there are a few pieces of scrip in that old box of odds and ends - they could be in the button box, the jar of washers and many other unsuspecting places. The person who has been collecting coins for a period of time very likely has some scrip tokens tossed aside.

The retired coal miner or members of his family very frequently have a few pieces of company store money. It is unfortunate that the descendants of older coal miners do not always know what these tokens are and consequently dispose of them. There are a number of coal operators, both past and present, who have retained at least a portion of the scrip formerly issued by their companies.

On the other hand, many coal operators at the time they discontinued using scrip made an all out effort to destroy every piece. The reason for this was that they did wish to be obligated to refund at face value over an extended period. In this connection, it has been suggested by some that the

operator may have had a guilty conscience.

The methods used for the disposal and or destruction of scrip were varied and include - mixing them with concrete, melting, burying in most unusual places, and tossing in the nearest river or lake. Many collectors have a fair degree of success in finding this elusive item at flea markets. coin shops and antique shops. Coal scrip was used in 27 of the 50 states and is most difficult to find in Michigan and North Carolina.

There have been two publications that are oriented to the collectors of coal tokens. Coal Company Scrip by Walter Caldwell, published in 1969, and

20,000 Coal Company Stores by Gordon Dodrill.

The latter publication lists all company stores in the United States, Mexico and Canada for the period 1903-1958, by town, state, and county plus the number of employees and the period the mine operated. An attempt was made to place a monetary value on each piece of company scrip, based on the number of employees and the period of operation. This method of pricing did not prove to be realistic for a number of reasons.

On the other hand, this publication is the most comprehensive listing of its kind and is recommended, without reservation, as a most effective reference for your local library as well as the serious coal scrip collector.

In some sections the coal company had a working relationship with one of the local merchants, in lieu of operating their own commissary. Thus the tokens bearing the merchants name are considered coal scrip and this is so reflected in the Dodrill Publication. The author has made his copy available to a regional organization that was helping the older retired coal miners qualify for their miners pension and/or black lung benefits. This book, 20,000 Coal Company Stores, was published in 1971 and represents 5 years of research by Mr. Dodrill. The price of this publication is \$10.

All scripters are awaiting the publication of what promises to be the "Bible" for coal mining scrip collectors. The author, Donald O. Edkins, Newport News, VA., has been compiling material for several years and it has been my pleasure to review a portion of the manuscript, plus coauthoring a

section of "PIT CAR CHECKS."

The book will contain some photographs and will most adequately describe each piece as to size, shape, metallic content and any other applicable pertinent data. In addition, and most important, it will contain a rarity scale from 1 to 10, which definitely will be the most realistic and practical method of pricing.

It is anticipated that when this knowledge becomes generally known by the coin, antiques and flea market dealer plus the casual collector that it will the "motivator" to get many of these type tokens out of the "crooks and crannies."

The value of scrip that falls in the higher rarity scale will be a most pleasant surprise to many people. On the other hand, scrip that is of the

common variety will probably be priced in the fifty cent category. It is expected that this publication will be available about the first of May.

Some collectors have had a "spin-off" from the hobby by starting collections of miners sunshine oil lamps, carbide lamps, canteens, flasks, etc.

Scrim Collectors

There is a formal organization of scripters, known as the National Scrip Collector's Association, generally referred to as NSCA. The objectives and purposes of this organization are to promote the collection of coal and lumber scrip (metal and paper) and related tokens; cultivate good relations between the collectors; and encourage the study and research of history of coal and lumber companies as it relates to scrip and the companies which manufactured the tokens.

The organization was originally dedicted to the collection of coal scrip only; but was subsequently expanded to include collectors of lumber scrip. As of January 1, 1975, the group boasted a membership of almost 300 members,

with 40 states being represented.

The official publication, SCRIP TALK, is published six times annually and covers the many facets related to the collecting of coal and lumber scrip. The organization meets twice each year - a spring and fall meeting. The meetings are rotated as to geographical location and the spring meeting will be held at the Pipe Stem State Park near Beckley, West Virginia, on April 29-30. The dues are a modest \$3 per year, which include a subscription to SCRIP TALK.

Anyone interested in joining the organization is invited to contact the author. Tip Tippy, 1021/2 Meadow Road, Oak Ridge, TN. 37830.

Editor's Note: The writer is a native of the coal fields of Southern Illinois. Following graduation from the University of Illinois, Tippy was employed in the offices of Peabody Coal Company at Harrisburg, Ill., and Harlan, Ky. For the past 31 years, he has been employed by Union Carbide in Oak Ridge, Tenn. A collector of coal scrip for the past 15 years, he is a co-founder of the National Scrip Collectors Association and presently serves the group as its president.

This article originally appeared in the <u>Tri-State</u> <u>Trader</u>, a weekly publication, devoted primarily to antiques and is oriented to the Mid-West States, plus Pennsylvania, West Virginia, Kentucky, and Tennessee. They do publish stories on coins each week and periodically have articles on tokens.

Hats off to this hobby group that is working on thevery first comprehensive publication on coal scrip tokens that will include information in relation to rarity, value, metallic content, size, etc.

Let us all keep our fingers crossed that this publication will be available by no later than May 1st.

As editor and publisher of METCA I welcome all NSCA members who have joined METCA, and, in turn, I encourage those of you who have an interest in coal and lumber tokens to become active in NSCA.

Thank you, Tip, for a well thought out article on coal scrip and for sharing your knowledge with us.

THE WORLD OF TOKENS

Ed. Saunders

The world of tokens has an attraction for everybody. There are so many ways to turn in this field of collecting that there is something for almost every type of person. One may prefer the transportation line, while another prefers tax tokens, or O.P.A.'s become their thing. Others collect by town or county, while many collectors desire one state or more. Good luck tokens are quite numerous and seem to have quite a variety, i.e., Indians, Horseshoes, Swastika, and may number of others have good luck themes and charms.

The trade token, as such, seems to be a very popular collecting interest in today's world of collecting. But this, too, is a wide field. It is divided into so many different fields of the hobby. One can be any number of types of a collector- a saloon collector, military, coal company, hotel, general store, mining camps, ghost towns, dairy, bakery, confectionery, or just about anything in the general field itself.

In the rubbings here shown (the cover), one can see the variety that can be uncovered when one takes the time to try. We can take a closer look at this world of collecting. It is an interesting world opened to the mind that likes the lure of the past, the views seen in the relics of the past, and when taken with a little study into historic annals one finds sparks of interest in names revealed on the lowly token. Be it a name of a business, or a town long gone, or an address unknown, it is an adventure to search out the secrets of yesterday's glories.

We can find many different items here in these rubbings. There are a couple of nice political pieces and several interesting and unusual pictorial items. There are unusual items like the Porter's meal check or the one shine token. You will find a nice transportation token from the Golden Gate Children's Playground. Note the post exchange token from the same company that Custer belonged to in his glory. See the international demonstration token of the I.O.O.F. lodge. Several examples of world fair items are shown. There are dated items. Soda fountain and drug store collectors can find a bit of a flair here also. The store card collector has a few items he might find to be of interest. There is the bank vault item and the one with the dog on it. The Literary Depot is most likely a good example of the early nineteenth century store cards. There is a nice cut-out from Ohio and, last but not least, a nice mercantile token issued by a British firm in Idaho.

The interest is there; one just has to develop it and before long one becomes a part of the world of tokens and it becomes a new avenue of life and expression. Why not give it a try and see if it doesn't open new lanes of adventure unto you, and give you a richer and more respectful reverance for the argonauts of the past for those who lived and fought to make this nation's history a glorious one and one we can be proud of in this age of celebration. Yes, many kinds of tokens have been used in the past two hundred years. Now all you have to do is find a field of collecting that fills your interest and you will be well on your way.

In answer to the photo and "Who knows where Guion Merc. Co is ?" in the December issue of Trade Token Topics.

The Guion Merc. Co. was owned and operated by W.C. Norman and located in Guion, Arkansas (Izard County) North Central Arkansas.

Guion Merc. Co. probably started operating around 1910 and closed down between 1920 and 1922. Anyway, the last listing for them was 1920 and they did not appear in the 1922 directory.

The logs in the foreground are probably from the "J.H. Wood Lumber Co." that was there from 1914 through 1918.

Guion had a population of 200 in 1914, dropped to 150 in the early 1920's. At present in 1975 there 208 inhabitants. It is located on the White River about forty miles up stream from Batesville.

Ed. - Tom Robinson, P.O. Box 8405, Pine Bluff, Arkansas, 71601, provided the detailed information on the inquiry by Phil Klabel on Guion Merc. Co.

C.J. Foster, 1903, Gray Cheap Store Token - An Unusual Dated Two-Value Token

OBV: C.J.FOSTER/5¢/1903/ GREY CHEAP STORE

REV: GOOD FOR/8¢/ON NEXT/ 50¢ ORDER (AI, 25mm)

I recently acquired a C.J. Foster, Gray (Maine 1 Cheap Store Token. The piece is unusual in that it is "good for" both 5¢ and 8¢ and also dated.

I happen to have the 1903 Mercantile Agency Reference Book (Dun. & Co.) for New England and C.J. Foster is listed under Gray, Me. as a dealer in Dry Goods, etc. His pecuniary strength as less than \$500.00. The population of Gray is given as 1,388 in 1903.

OILTON ENIGMA

By Del Ford

The picture shown herewith is of an aluminum token from Oilton, Okla. My good friend John Coffee, editor of the Fare Box, has labeled this a drayage check, an observation which I decline to agree with until further research is had.

A 75 year old Oilton resident has informed me that he remembers the wagon used by the City Transfer Company there circa 1920. He described the team of horses as a beautiful black stallion and a pretty spotted mare. He relates that people sometimes rode with the driver but he has no knowledge or remembrance of the token usage.

However, it occurs to me that the 12½ on the reverse could not have been part of a proper numbering system to be used a claim or drayage check, but must have been used as one half of the customary 25¢ fee for a round trip from depot to hotel (or other destination).

I hope someone out there may have some knowledge of the usage of this token and will get in touch with me.

Eight Different Oklahoma Sales Tax 1¢ and 5¢ Tokens
These are all errors - Uniface - Off-center - Clipped - Etc.,
Special - \$3.00 per lot of eight.

Civil War Token - Concord, N.H. #120 - A -la - VF+ - \$21.00

Civil War Token - New York City #630 - BZ-5b - Brass - \$22.00

Pocasset, Okla. - Minter Bros. \$1.00 Trade Token- Double Struck - \$20.00

Del Ford - Box 15263 - Del City, Oklahoma 73115

THE MYSTERY OF COPPER CREEK

For years many Montana collectors have had one of the above illustrated brass tokens, which at first glance looks like a salesman's sample. It has been listed from the town of Copper Creek, but the enigma of having a token from a town of which there is no record persisted. Not on maps, nor postal records, nor Gazetteers, nor directories, nor railroad timetables, even as a siding. True, there is a creek by that name, but a creek only. Copperopolis yes, Copper Creek no.

In 1912 R.L. Igel opened a drug store in Stanford, Montana. Business was good, so he opened a branch in Coffee Creek, a scant twenty miles away, in 1913. By 1914, Mr. Igel was listed in BRADSTREET'S COMMERCIAL DIRECTORY as being in both towns, but by 1918 he had closed the Coffee Creek store and by 1920 he was not to be found listed anywhere.

As to the token itself, the word "stores" denotes more than one outlet. One can surmise that if the original order was written in long hand, the die-maker could easily have mistaken two small case letter "f's" for "p's" and the final "e" for an "r". Perhaps Mr. Igel failed to mention a preferred denomination, thus none was given. More than likely he wished to issue and honor his tokens for a certain known value, and anything at that price could be acquired, whether it be a cigar, coughdrops, a pencil, candy, or whatever. End of mystery.

TRADE TOKEN TOPICS

MONTHLY PUBLICATION FOR TRADE TOKEN COLLECTORS

MERCHANT TOKEN

COLLECTORS ASSOCIATION

R. W. COLBERT

GEORGIA TOKENS

EDITORS ECHOES

TTT is the official publication of the Merchant Token Collectors Association and is published monthly in Seattle, Washington. Mailing address: 1416 Third Ave., Seattle, Washington 98101. Bary D. Bender, Editor-Publisher.

Trade Token Topics will be mailed on the first of each month to all members of METCA. Dues will be \$7.50 per calendar year. Every member of METCA is entitled to a free ad of four lines in each issue provided it is different each time.

Display Advertising Rates Per Issue:

Full Page - \$12.00 Half Page - \$ 7.50 Qtr. Page - \$ 4.00

Ads placed for three issues or more will receive a 20% discount. Yearly and half-year rates will receive a 25% discount. Make all checks and money orders payable to METCA at the above address. Deadline for all copy is the 20th of each month preceding issue. The publisher does not accept responsibility for any correspondence mailed to any address other than this one.

Don't forget to attend the tenth anniversary celebration of the Coal Scrip Collectors to be held at the Pipestem Lodge near Beckley, West Virginia, on April 29 - 30.

The Colorado Merchant Token book will be released in April 1977. This 6x9 inch book contains photographs, a maverick index, and descriptions of 3500 tokens. It will be available in hardcover (\$12.50) and drilled for looseleaf notebooks (\$11.00). A SASE will get you confirmation on orders or questions answered - Write to:

Lee Nott 631 Osage Drive Papillion, Nebraska 68046
Jim Wright 7960 Raleigh St. Westminster, Colorado 80030

If all goes well METCA will resume its Maverick Section by April or May. Lee Nott has expressed an interest in being METCA Maverick Editor and I am officially delegating this responsibility to him. By March Lee will have much of the responsibility for the Colorado token book out of the way. Hopefully, the April issue of Trade Token Topics will carry the guidelines and restrictions on mavericks that can be listed. This will be Lee's task and with his background in token collecting and cataloguing I am confident that Trade Token Topics will carry an outstanding section on mavericks.

Coin World and Coin Investor carry notices on joining METCA. Tell your friends about our association. Presently, there are 245 members in METCA. I am pleased with this number in such a short time, however, I am initiating the following special for the month of February:

For each new member recruited by a present METCA member in February a credit of \$2.00 will be awarded for the present member and the new member. This credit/s can then be applied to full, half, or quarter page ads. New members please indicate in your application who has recommended you to join METCA. Take advantage of this special to increase our membership and defray some expenses. on your classified ads.

Either the March or April issue of TTT will bring your membership cards, the index of the first five years of Trade Token Topics, and a membership roster of METCA with each member's collecting interest.

I had hoped to tighten the number assigned each member in METCA, however, many have written to say that they have had personal tokens made with their previous numbers, etc., so no numbers will be changed.

In order to raise money for the purchase of a new typewriter and to cut down the inventory of bask issues of Trade Token Topics I want to offer back issues of TTT's at 25¢ each or \$2.50/year. There are quantities of back issues of at least fifty of the sixty issues. Some issues will not be available.

EDITORS ECHOES

Regarding back issues of Trade Token Topics - they are an outstanding source of information for tokens from all over the country. There are some outstanding articles by prominent members as well as a source for contacts by members.

The following cataloguers would appreciate hearing from any METCA member who have tokens from their specific state which have not been reported earlier for inclusion in their listings:

Lloyd E. Wagaman on Indiana - Route 1, Box 195-D, Camby, Indiana 46113.

John D. Mutch on Idaho - 3726 Buckingham Ct., Boise, Idaho 83704.

Terry Trantow on Lumber Tokens - P.O. Box 524, Ellensburg, Wa. 98926.

Charles E. Kirtley on N. Carolina - P.O. Box 259, Marble, NC. 28905.

Jerry R. Roughton on N. Carolina - 2002 Carpenter St., Greensboro, NC. 27403.

Hal Birt, Jr. on Arizona - 4325 E. Broadway, Tuscon, Arizona 85711.

Lee Nott on Colorado - 631 Osage, Papillion, Nebraska 68046.

Jim Wright on Colorado - 7960 Raleigh St., Westminster, Colorado 80030.

George F. Gould on Montana - P.O. Box 9552, Seattle, Washington 98109.

G.P. Chatham on Mississippi - 813 W. Gresham, Indianola, Miss. 38751.

R.W. Colbert on Georgia - 4156 Livsey Rd., Tucker, Georgia 30084.

Jim Millard on Oregon - 3969 S.E. 170th St., Portland, Oregon 97236.

Lew Ferguson on Iowa - 1605 Roosevelt Ave., Ames, Iowa 50010.

Richard Magnuson and others on Brunswick tokens

Charles Kappen on California - 2201 Peachtree Lane, San Jose, Calif. 95128.

Hal Dunn on Nevada - P.O. Box 114, Carson City, Nevada 89701.

Len Hoskins on Nevada - 1342 Cedar Street, Elko, Nevada 89801.

There are others (one other on Nevada) who are cataloguing tokens from specific areas whose names escape me at the moment. If I have omitted you, please contact me.

Kenneth Smith has compiled a catalog of Amusement Tokens of the Minneapolis St. Paul Area. The forty-four page compilation appears in the December 1976 TAMS Journal.

Ken would like to acquire any additional information for future listings on listed and unlisted tokens, their usage, locations and availability. Please send this information to Kenneth Smith, 328 Avenue F, Redondo Beach, California 90277.

Transportation Token Collectors Note!

Catalogue of World Transportation Tokens and Passes (except North America) 300 pages cloth-bound. Price (as quoted in <u>The Fare Box</u>) only \$5.00 postpaid. Order directly from Kenneth E. Smith, 328 Avenue F., Redondo Beach, Cal. 90277.

1977 Supplement to Atwood's Catalogue, ready about March 1977. \$4.00 is the advance order price to AVA members (what is deadline for advance orders?). \$5.00 will be the price to AVA members after publication. \$7.50 is regular retail price to non-AVA members. Make checks payable to American Vecturist Assn., P.O. Box 1204, Boston, Mass. 02104.

Editor would like to hear more about the ULATCO of Salt Lake City. ULATCO stands for The Utah La-Vecturist And Token Collectors Organization.

EDITORS ECHOES

Thank you for the response to last months ad. This month give me a chance to purchase your Texas tokens. What are your wants?

Charles Berger 222 Terlinua Portland, Texas 78374.

10 Different Metal Military Tokens for \$5.00. Specify your choice of (a) U.S. Mainland Bases, or (b) Vietnam. Will trade these for Texas Tokens, Medals, or Mark Pennies.

Leo J. Warren 25303 Ima Ruth Parkway San Antonio, Texas 78257.

FOR SALE OR TRADE - BEST OFFER - See My Want List This Issue - Encased Cent - Nice Chamber Pot - Monte Carlo Saloon, Charleston, West Virginia. Offer closes on the 20th of February, 1977.

C.E. Heppner 203 Jones Building Seattle. Washington 90101.

I have for trade: Plank House, Tomales, Cal. Also The Exchange Bar, Silver City, New Mex. Another goodie is a two-stater; obverse - Sun Prairie, Wisc. and the reverse is Chicago (Good for 3). I can use Pennylvania material. H.M. Aqua, 487 Bennet, Luzerne, Pa. 18709.

For an outstanding article on Arizona trade tokens please note the current issue of Arizona Highways (February 1977). This eleven-page feature includes some outstanding color and black and white photographs of John Hamilton III's Arizona collection. The photos by Gill Kenny are fantastic as is the entire feature edited by Dan L. Thrapp. Many saloons, military and territorial tokens are featured.

For those of you who don't have access to this outstanding tourist orientated state magazine, I will try and purchase some copies to make available for you at its cost of one dollar. This feature is well worth the price of one dollar even if you don't collect Arizona trade checks.

Don't neglect to note the color slides of portions of the article that are offerred for sale at the end of the publication (page 48).

I failed to note that Herman M. Aqua is working hard in cataloguing Pennsylvania tokens. Any help by anyone will be greatly appreciated.

Herman M. Aqua 487 Bennett Street Luzerne, Pa. 18709.

A good source for many token books is Bebee's, Inc., 4514 North 30th St., Omaha, Nebraska 68111. They have a full-page ad on the last page of $\overline{\text{TAMS}}$ JOURNAL.

Regarding the Colorado Token Book - The December 1976 issue of TAMS JOURNAL states pre-publication price to TAMS members as \$10.00 (hardcover), \$9.00 (lloseleaf) or quantities of 20 or more books - \$9.00 for either type. Prices include 50¢ per book postage and insurance. The problem at hand is that many of us didn't even receive our TAMS JOURNAL until a few days before the stated pre-publication deadline of December 29, 1976. In light of this I think those TAMS members wanting the Colorado book at pre-pub. prices should write Lee Nott or Jim Wright right away to get some clarification on this matter.

Mention of tokens in Coin World (January 26, 1977):

Bingles - page 14; METCA member, R.W. Colbert's "good for" - page 34;

Cal-Neva - page 38; Captain Orr's new Communion token list - page 40;

Token and Medal Auction at Long Beach Expo conducted by Paul Koppenhaver - page 52; German Hall issues own token - page 56; METCA - page 90.

TRADING LIST - METCA #3

I collect merchant tokens from the towns of Dayton, Waitsburg, Starbuck, Pomeroy, Asotin, Prescott, Touchet, Clarkston, and Pataha, in the state of Washington. The following tokens are for trade for the tokens from the aforementioned towns; tokens from these towns will receive the highest consideration in a trade. I will consider Walla Walla first and the rest of the state of Washington for trades if you have nothing from my major towns in southeast Washington.

S.F. Cross Gen. Mdse. Follett, Tex. Rd. Alum. G. F. 5¢ in Merchandise. 01 The Fountain. 30 East 5th St. Steffen Bros, Prop. Dayton, O. Rd. Al. 21/20.

Have about forty different Wisconsin merchant tokens to trade.

Those of you interested in postcards from your cities or states please drop me a line as I have a large box of cards to trade or sell. I collect all cards from the towns listed above or any street scenes from small Washington towns; also like eastern Washington harvesting scenes pre-1920 only.

Please refer to my trading list in December TTT as many of them are available for trade for tokens from the state of Washington.

- 81 Advertising Postcard on Rev. of Grant card Ouerbacker, Gilmore & Co. Louisville, Ky. 1892. J.S. McAlister. Products they sell all over the card.

EDITOR'S ECHOES

Trade Token Topics is the official publication of the Merchant Token Collectors Association and is published monthly in Seattle, Washington.

Mailing address: 1416 Third Avenue, Seattle, Washington 98101. Bary D. Bender, Editor - Publisher. Telephone - 206 - 624 - 4440 Days - Monday thru Friday.

Trade Token Topics will be mailed on the first of each month to all members of METCA. Dues will be \$7.50 per calendar year. Every member of METCA is entitled to a free ad of four lines each issue provided it is different each issue.

Display Advertising Rates Per Issue:

Full Page - \$12.00 Half Page - \$ 7.50 Qtr. Page - \$ 4.00

Ads placed for three issues or more will receive a 20% discount. Yearly and half-year rates will receive a 25% discount. Make all checks and money orders payable to METCA at the above address. Deadline for all copy is the 20th of each month. The publisher does not accept responsibility for any correspondence mailed to any address other than this one.

EXONUMIA LISTS

- (1) International Collectors Service, P.O. Box 415, Woodland Hills, Calif. 91365. Lawrence E. Elman has issued a Spring 1977 Listing (fixed price) of "Important Early American Medals". Listed are 182 medals; 183-250 contain So-called Dollars; and listings 251-275 contain Col. Exposition material.
- (2) M. R. Pender (AMTA) American Medal and Token Association, 148 Poplar St., Garden City, New York 11535. Michael has a several-page listing of nice material for sale.
- (3) Dick Grinolds, 627 Polk St., N.E. #9, Minneapolis, Minnesota 55413. Dick has a thirteen-page listing to select from.
- (4) Others consult page five of March 1977 Trade Token Topics. I will list members' mail-bid listings provided I receive a listing for METCA.

TOKEN CATALOGUERS

This listing contains $\underline{\text{new}}$ cataloguers not listed in the March $\underline{\text{TTT}}$. Please consult page four of the March issue for a listing of cataloguers.

- (1) Wyoming Leon R. Corpuz, Jr. P.O. Box 374, Sinclair, Wyoming 82334.
- (2) California Stephen Album, P.O. Box 4039, Berkeley, California 94704.
- (3) Award Medals of U.S. Agricultural Societies and Mechanics Institutes Andrew Harkness, 368 River Heights, Rochester, New York 14612.
- (4) Utah Harry F. Campbell, 1419 West Indiana Ave., Salt Lake City, Utah 84104.
- (5) Amusement Tokens Stephen Alpert, 11106 National Blvd., Los Angeles, California 90064.
- (6) Tennessee Dave Mullins, P.O. Box 17571, Nashville, Tennessee 37217.
- (7) Missouri Tokens and Medals; Token Types of St. Louis Engravers and Die Makers; Other read Editor's Echoes. Michael G. Pfefferkorn, P.O. Box 2829 Carondolet Station, St. Louis, Missouri 63111.
- (8) Louisiana trade, military, parking, amusement and transportation tokens Glyn V. Farber, 1618 15th St., Lake Charles, Louisiana 70601.
- (9) 19th Century Illinois Tokens and "Price Guide to Hard Times Tokens" Joseph Schmidt, Box 471, Bensenville, Illinois 60106.

FDITOR'S ECHOES

Michael Pfefferkorn is working on several new projects which will need the help of fellow METCA members. These projects are (1) an analysis of the token types produced by St. Louis engravers and die sinkers - Any information on St. Louis-produced tokens would be appreciated. (2) Compiling data for a possible all-inclusive work on Missouri tokens and medals. (3) Developing a co-operative group that would produce a new work to replace Miller's book on early merchant tokens. In addition to enlarging the number of listings, Michael would like to see as much information compiled about the issuer as possible.

Stephen Alpert is preparing a major revision of his catalogue of Amusement and Vending Tokens, with the tokens listed by city and state; thus if anyone can identify any of the mavericks listed in his catalogue and supplement, this information will be much appreciated.

Joseph Schmidt has started his second book, "A Price Guide To Kard Time Tokens". All we collectors have had these pieces at one time or another, and

we sorely need an update to LOW'S Rarity Scale, etc.

The work will list the average price realized of every hard Times Token in six grades sold during the 1970's. Joe has written many "mail tid" dealers asking for their back catalogues and/or PR's since 1970. Joe Levine, Tom Wall, Paul Koppenhaver and Paul Cunningham have responded enthusiastically. Others haven't responded with the same enthusiasm. He has offered to pay for these catalogues and PR's or feature each concern (owner, address, etc.) prominently in this work. There is a great need for such a project like this, however, Joseph Schmidt needs the unselfish cooperation of dealers. It would help them as well as collectors and surely stimulate more interest in the subject. I know that Joe is hoping you can help!

Stephen Album is gathering data for a second supplement to his Catalog of California Trade Tokens, though he has not yet set a date for the release.

Don't forget to order your copy of "Chits, Chiselers, and Funny Money" by Michael G. Pfefferkorn and Jerry F. Schimmel. See ad in this issue.

While you are enjoying Michael and Jerry's catalogue on sales tax tokens why not drop a line to Glyn V. Farber, 1618 15th Street, Lake Charles, La. 70601, for information on joining the American Tax Token Society (ATTS)? Glyn is national librarian for the American Tax Toke Society.

R.W. Colbert has suggested that METCA issue a token for the ANA Convention to be held in Atlanta on August 23 - 28. I am in favor of such an idea. R.W. has submitted several rough ideas which I will scrutinize. One idea I think would be nice is a token good for 86¢ off a new membership (since it is the 86th anniversary convention). R. W. has volunteered to be a METCA representative at the convention and see that the August Trade Token Topics is distributed among those interested in token collecting. Mr. Colbert and I will entertain any comments in this regard.

Don' forget that the National Scrip Collectors Association's Tenth Anniversary Spring 1977 Meeting will be held at Pipestem State Park April 29-May 1.

I thoroughly enjoyed the March 1977 issue of Scrip Talk, official newsletter of the National Scrip Collectors Association. Those of you interested in joining the organization contact: Walter Caldwell, Secretary, P.O. Box 29, Fayetteville, West Virginia 25840.

EDITOR'S ECHOES

If I can draw some added energy I will attempt to mail a membership roster in mid-April to all METCA members. It will be mailed before the May issue reaches you.

I received a note from Lee Nott in which he states that Jim Wright and himself were over one-third through final book proof as of late February. I know a lot of us are anxiously awaiting the arrival of Jim and Lee's catalog.

Back issues of Trade Token Topics are for sale at \$2.50 / year. Most issues of the five previous years are available.

METCA special for the month of May issue will be full page ads at \$10.00 instead of the regular \$12.00 cost. Those of you who received \$2.00 credit slips can use them on any quarter, half, or full page ads. I will continue to give \$2.00 credit slips for each new member and member who proposes membership throughout the month of March and April. METCA member, Bob Slawsky, has personally accounted for over eighty per cent of the new members in METCA over the past few weeks. Hats off to Bob and keep up the good work!

Those of you who have not received your credit slips, please contact me. Since I stamp, address, type, fold, lay-out ads, etc., I know I must be slipping up in my secretarial duties. Is everyone's address right? How about it - Have you received all four of your Trade Token Topics thus far? If I have neglected anyone, please contact me and I will address the problem promptly. I used to be a prompt letter writer and answerer, however, since assumming METCA duties I no longer can say that.

Josef Smith, Alaska token collector, dropped into the shop a few days ago for a nice visit. It wasn't five minutes before METCA members Bob Keck and Clarence Heppner wandered in. Needless to say, the four of us proceeded to talk tokens, made a few sales and swaps, and generally had a swell time. Hepp's Shop and mine seem to serve as token centers in Seattle. Most of the Washington bunch has been in one time or another.

New members - many tokens that appear in earlier Trade Token Topics ads are still available for trade. Feel free to write members regarding the tokens they have listed. Don't assume all tokens that have been listed have been traded, especially, in light of the small membership in the first few months.

I have received a nice letter from John Mutch, Idaho token cataloguer, who is presently working on a listing of Idaho mavericks. He has a number of tokens still in question as attribution was very sketchy. He is currently seeking further information on them from many of you.

U.L.A.T.C.O.

The members of U. L. A. T. C. O. of Salt Lake City, Utah, met for our quarterly meeting at the offices of our host, David Freed, in the Terrace Ballroom in Salt Lake City at 7:30 p.m., Thursday, March 10, 1977. The group's get together was enhanced by the fact that member's wives came along and new friendships were made. Many topics were discussed regarding tokens, including the reading of John Hamilton III's token collection in Arizona.

This author, whilst looking through a book of trade tokens owned by Richard smith of Layton, Utah, discovered an Atwood 750 B transportation token; the rarest of Utah tokens. As Richard was unaware as to its true value and significance, this turned out to be the highlight of the evening.

Those wishing to know more of this group may do so by contacting me, Harry F. Campbell, 1419 west Indiana Avenue, Salt Lake City, Utah 84104.

METCA MAVERICKS

New listings of mavericks will commence with number 1001. In submitting rubbings, please make them clear and sharp so they can be included with the listing.

Descriptions:

1001	Obv: Rev:	Buckhorn / Tavern / Little York / U.S.A. Good for / 5¢ / in trade 19mm br rd	#37

CHITS, CHISELERS, AND FUNNY MONEY

by

Michael G. Pfefferkorn and Jerry F. Schimmel IS IN PRINT AND AVAILABLE

I will be placing my second order with the publishers, and
I am offering this new, extensive reference for a short time at
the special price of \$17.00, postpaid. (After this order has
been sold, the book will be sold for its regular price of \$18.25,
postpaid.)

Government issues, merchant tokens, and personal cards relating to TAXES in 29 different states are listed in the 242 pages and 26 plates. Additional listings are illustrated in the text. Most Western states are listed in the book. A separate price list and checklist comes with the book.

I collect the southeast Washington towns of Dayton, Waitsburg, Starbuck, Pomeroy, Asotin, Prescott, Touchet, Clarkston, and Pataha. I need certain denominations of merchants, i.e., Edwards Hindle Co. Waitsburg Merc. Co., Dayton Mercantile Co., Boone Supply Co. A.C. Gerken's Cash Grocery, Far Eastern Department Store, Scottie's Place, and many others. Rub your tokens from these areas as I am interested in die varieties. Please do not assume that because I collect just a few towns that I have all of them. I will consider cash offers if trades are impossible, however, trades will receive the first consideration. Bary D. Bender, 752 N. 74th, Seattle, Wn. 98103.

Dear Bary:

By coincidence, I had written the American Legion just prior to your comments in METCA about it. Enclosed is the response that I received from them. If you think there is anything that may be of use to METCA members, feel free to use it.

Sincerely,

John T. Hamilton III

March 8, 1977 22--75--22

Mr. John T. Hamilton, III P. O. Box 6765 Tucson, Arizona 85733

Dear Mr. Hamilton:

It is entirely possible for each one of our states to have a Post 335. However, most of our Western states do not have a Post by that number, primarily because there is simply not that number of Posts in the sparsely settled states.

I have had a check made, and we do have a Post in California with that number. The next two closest to Tucson would be a Post in Iowa and a Post in Kansas. Attached find some information on each one of those Posts.

There are over 16,000 Posts in The American Legion. We are not at liberty to furnish a file on all of these. However, under our established procedures contacts for information of this type should be directed to The American Legion Adjutant in each of our states, and I am attaching a list of those individuals. This may be the information other collectors would need.

1 Therefore

IOWA TOKEN MATERIAL

PATRICK D. HOGAN

In November, 1976, a friend presented me with two small pouches of "foreign coins and tokens" which represented an accumulation of numismatic items which had languished in a dresser-drawer of a relative of his. It is a typical cache of odd coins and old tokens, which may be found in many households throughout the land. It contains foreign coins, mostly of Europe and the WWII period, and various obsolete tokens, mostly local. The cache was accumulated in the Cedar Rapids area. Since it contains many previously unlisted tokens of Cedar Rapids and Jarion, a listing of this cache's tokens will be of interest to Iowa token collectors.

The cache contains 25 tokens and advertising pieces and 35 transportation and tax tokens. Of the fifteen Iowa trade tokens, eleven of them are not listed in the Ferguson Trade Tokens of Iowa, and two of the listed pieces provide either corrections to the catalog, or new varieties. (Ferguson numbers used in parentheses): [Corrections underlined.]

Mr. Hogan was toying with the idea of starting an Iowa token club of some sort, or at least publishing a small journal on the subject so that collectors of Iowa could get something started. Time and distance (Mr. Hogan has moved from Iowa to P.O. Box 580, Pomona Park, Florida 32081) doesn't permit this so Mr. Hogan has kindly written this material for METCA to share with its membership.

Wording of the articles are meant for the eyes of Iowa collectors, who, in a journal devoted to Iowa tokens would know what Mr. Patrick Hogan is talking about without further need for description, places, etc. - Editor.

EDITOR'S ECHOES

Thanks to Jerry Roughton for enclosing some rubbings of North Carolina mavericks that have been identified.

Thanks to John T. Hamilton III for sharing his recent information of the American Legion directory with METCA.

Thanks to Patrick Hogan for his sharing of new knowledge of Iowa material.

Thanks to Lee Nott, METCA Maverick Editor, for getting our Naverick Listing started. Those sending rubbings, please make them sharp and concise so they can be used in Trade Token Topics.

Received a card from Al Zaika regarding the Token, Medal and Exonumia Show scheduled at the Philadelphia Sheraton Hotel, April 16 - 17, 1977, at Fhiladelphia, Pa. Al states that they don't expect to make a dime off this affair, but hope to provide a yearly show for the token and medal collector. Dealers with material covering all facets of the hobby will be present, so pickings should be good.

I know that Gerald Kwock, Hawaiian collector, is planning to attend the Philadelphia show. That is quite a trip to make for one's hobby, however, I for one sure miss the annual token show that Duane hosted in San Jose, California. I would have attended this show if 2 of the staff weren't on vacation. (Ed.).

The March 1977 Numismatist contains a good article for ANA attenders to Atlanta, Georgia. The article, "Y'all Come To Atlanta," is authored by David L. Ganz.

Exonumia Notebook by David E. Schenkman and Joseph Levine in the March <u>Numis-matist</u> features some interesting transportation tokens not listed in the 1970 or 1973 supplement to the catalog and a few medal articles.

Charles Berger, token collector from Texas, sent in a rubbing of a round brass token - The Gld Corral, 4 miles North on Deer Fark Highway, Dieter's, G.F. 10¢ I.T. Charlie was trying to attribute the token to some area near Deer Park, Texas. Research revealed there is no highway which goes north out of Houston to Deer Park. Further research pointed to Deer Park, Washington, and to New York. Both states have communities named Deer Park which are north of larger cities or highly populated areas. Next, Charlie figured "Gld Corral" would fit washington over New York since he had ruled Texas out. His letter to me spurred me to call Forrest Dunham, who confirmed my suspicion that this piece was indeed from the state of Washington - a new maverick identified for a collector!

GEORGIA MERCHANT TRADE TOKENS WANTED. WILL BUY OR TRADE. BUYING STONE MOUNTAIN MEMORABILIA (INCLUDING OLD VIEW CARDS OF MCUNTAIN). 1895 COTTON STATES INTERNATIONAL EXPOSITION EXONUMIA AND ADOLPH HITLER PORTRAIT MEDALS AND TOKENS. R. W. COLBERT, 4156 LIVSEY ROAD, TUCKER, GEORGIA 30084.

TRADE TOKEN TOPICS

MONTHLY PUBLICATION FOR TRADE TOKEN COLLECTORS

MERCHANT TOKEN

COLLECTORS ASSOCIATION

ATTEND 86TH ANNIVERSARY AMERICAN NUMISMATIC ASSOCIATION **AUGUST 23 - 28, 1977** ATLANTA, GEORGIA MARRIOTT HOTEL — HEADQUARTERS

Trade Token Topics is the official publication of the Merchant Token Collectors Association and is published monthly in Seattle, Washington. Mailing address: 1416 Third Avenue, Seattle, Washington 98101. Bary D. Bender, Editor - Publisher. Telephone (206) 624-4440 Days - Monday thru Friday.

Trade Token Topics will be mailed on the first of each month to all members of METCA. Dues will be \$7.50 per calendar year. Every member of METCA is entitled to a free ad of four lines each issue provided it is different each issue.

Display Advertising Rates Per Issue:

Full Page - \$12.00 Half Page - \$7.50 Qtr. Page - \$4.00

Ads placed for three issues or more will receive a 20% discount. Yearly and half-year rates will receive a 25% discount. Make all checks and money orders payable to METCA at the above address. Deadline for all copy is the 20th of each month. The publisher does not accept responsibility for any correspondence mailed to any address other than this one.

EDITORS ECHOES

As a service to collectors and to help with his supplement on "19th Century Illinois Tokens" Joe Schmidt will attribute any exact description of any Illinois tokens sent to him at his address: (Joseph Schmidt, Box 471, Bensenville, Illinois 60106) at no charge to the collector, however, please enclose a SASE.

The Book for TAMS is non-profit, so there is no monetary gain involved in the catalogue, just information for fellow collectors.

H.C. Schmal, Arizona exonumist, is working on a 900 lot exonumia list to be completed soon. He has just completed a 5700 lot wooden nickel booklet, too. Inquiries should be directed to H.C. Schmal, 3136 E. McDowell Phoenix, Arizona 85008.

Dan Jacobson sent a clipping to point out a new book by D. Vaia on The Tokens of Puerto Rico. Approximately 424 plantation tokens are identified. It is a 48 page soft cover book and bilingual, written in Spanish and English.

Vaia has collected the tokens and studied the history of Puerto Rico's plantations for over thirty years.

Dan said it is available at ${\bf 3}.50$ post paid. Though there are no pictures, just listings, Dan said it is well worth the price. Address: D. Vaia, RR 2, Box 590, San Sebastian, Puerto Rico 00755.

The April 1977 TAMS JOURNAL features an article on zeppelin medals by Allan R. Bergman. This is an effort to catalog all zeppelin medals. New information should be directed to Mr. Bergman (pages 48-60)

EDITORS ECHOES

Pages 64-66 TAMS JOURNAL, April 1977 features a continual series on South Carolina Tokens by Randy Chambers. New listings, correspondence, etc., for this catalog should be directed to Randy Chambers, P.O. Box 1026, Gaffney, South Carolina 29340.

April TAMS features a nice article on the Miltonvale Roller Mills of Miltonvale, Kansas, by J.W. Baum.

Another April TAMS feature is an article "Todd and Till Token Two." Gerald Johnson following up AVA listing and research by Don Punshon elaborates on the Todd & Till Token. As Gerald so succinctly states "once again the discovery of a token has unveiled a vintage story."

A photo of Del Ford's Eglit #408 Columbiana piece is featured on page 79 of April $\underline{\mathsf{TAMS}}$ Journal.

Stephen Alpert, California exonumist, authors an article on two television medals on page 78 of TAMS Journal, April 1977.

Page 82, April TAMS Journal, features an advertisement of the new book by Michael G. Pfefferkorn and Jerry F. Schimmel entitled "Chits, Chiselers and Funny Money." Price at 17.00 the book contains government issues, merchant tokens, and personal cards relating to <u>taxes</u> in 29 different states. This material is listed in 242 pages and 26 plates.

A nice picture and article on the Ingle System Token Register appears on pages 720-721 by David E. Shenkman in "Exonumia Notebook" of the April, 1977 Numismatist.

The same section shows a picture and note about an unlisted St. Louis World's Fair medal by H. Joseph Levine (p. 722).

Trust the April 29 May 1st, 1977 Tenth Anniversary meeting of National Scrip Collectors Association (NSCA) at Pipestem State Park was a great success: Your editor will look forward to hearing from Walt Caldwell or R.R. Tippy on the success of the show as well as the latest information on the forth coming coal token catalog by Dan Edkins.

Those of you who have not joined NSCA at the 3.00 year price are missing a lot. Walt Caldwell, Editor - Publisher and Secretary-Treasurer does an outstanding job in $\underline{\text{Scrip}}$ $\underline{\text{Talk}}$, official publication of National Scrip Collectors Association.

April's $\underline{\text{Scrip}}$ $\underline{\text{Talk}}$ featured a nice article on tokens of Bond Lumber Co., Osteen, Florida.

Paul Jensen has a full page list of companies he wants a 1 ¢ or 5 ¢ token from in April <u>Scrip Talk</u>. Perhaps one of you have one of the many he listed you could sell or trade him.

Trust the Token, Medal, and Exonumia show sponsored by the Delaware Valley Vecturist Association in Philadelphia was a success. Hope to have a report on the show by Bourse Chairman Al Zaika for next issue of <u>Trade Token Topics</u>.

Daniel B. Benice, 19611 Brassie Place, Gaithersburg, MD 20760, has a seven-page trading list out now for trade for advertising tokens. Write Dan for his list.

Thanks to Paul White of Fayville Tokens for responding to Joseph Schmidt's request for his sales records on his token lists. Raul responded with the Prices Realized (PR's) gratis. Hats off to Paul who has the best of the hobby at heart!

EDITOR'S ECHOES

Joe Schmidt, Illinois exonumist, responded to Michael Pfefferkorn's interest in developing a co-operative group that would produce a new work to replace Miller's book on early merchant tokens by sending him a substantial amount of information on Illinois storecards. Joe gave him permission to go ahead and list all strict storecards of Illinois (75 or 90) from his book which TAMS will publish in October as Miller lists ohly 35 or so. As Joe states, "if other 'state' collectors follow suit Mike will have a nice book."

Considering the 21st century is only a few decades away we really don't know a heck of a lot about 19th century tokens. Joseph Schmidt's new book on "19th Century Illinois Tokens" will list over 450, more than ten times what is in Miller. Joe's book will appear in $\overline{\text{TAMS}}$ JOURNAL in October. Joe's book will be a worthwhile contribution in expanding knowledge about 19th century Illinois tokens. Hats off to Joe for his devotion to the hobby and unselfishness in sharing his knowledge with other collectors.

Lack of information is the biggest obstacle that confronts the cataloguer. We collectors who constantly seek new token information from those devoted to cataloguing must learn to share the tiny bits of information we have to help the cataloguer achieve his or her purpose. Cataloguers in turn should be grateful to the collector who shares these little tidbits of information. (Lloyd Wagaman, Indiana collector and cataloguer, expresses his appreciation in the classified section of this issue).

Louis H. Crawford, P.O. Drawer EZ, Mississippi State, MS 39762, is a cataloguer of Mississippi and Louisiana tokens.

Donald J. Benice, 25 Stewart Place, Mount Kisco, New York 10549, is a cataloguer of Alaska and Yukon Territory tokens.

Editor's Note: Approximately every other issue I'll list cataloguers on one page.

Richard D. Worthington, Texas exonumist, has just published a listing of Texas military tokens and chits which is available for sale or trade. (See ad in this issue).

Received the 1977 Supplement to Atwood's Catalogue of United States and Canadian Transportation Tokens from John Coffee, editor of The Fare Box. Available in cloth-bound, spiral bound, or loose-leaf. \$7.50 retail or 5.50 to AVA members. Write American Vecturist Assn. P.O. Box 1204, Boston, MA 02104.

Received an eight page listing of Idaho Mavericks that will be the crux of the Jun. Trade Token Topics. John Mutch, Idaho cataloguer, has worked hard to make this list available to METCA members. In return, collectors should make comments, additions, etc. available to John.

The 32nd Annual Convention of Pacific Northwest Numismatic Ass'n (PNNA) and Coin Show will take place Fri-Sun, May 13-15, 1977 at the Thunderbird Motor Inn (adjacent to Interstate 5) at 510 Kelso Drive, Kelso, Washington.

A few serious complaints have been registered against a Jean Fowler from Denver, Colorado, for soliciting tokens on approval with intent to buy and then failing to return the merchandise or even make replies to the senders. This has happened to two METCA members this year and the amount of money and number of tokens is a serious matter. Until this matter is resolved a note of caution is in order in dealings with Jean Fowler. It is imperative to conduct your token affairs consistent with practices recognized as honest and upright. If we don't we will hardly enhance the hobby and bring the respective collectors into a closer token fellowship.

EDITOR'S ECHOES

Paul Cunningham, Box 1, Tecumseh, Michigan 49286 has a 2,489 exonumia list tentatively set for May 30 deadline for bidding.

Those of you who have not sent 2.00 plus a 13¢ stamp to Len Hoskins, 1342 Cedar St., Elko, Nevada 89801, are missing out on a list of more than 200 maverick tokens attributed to Nevada towns. Rubbings of more than 100 are included.

The Fare Box (April, 1977) features many interesting articles, the highlight being the depotel tokens discovered by Hank Reidling, all of which are pictured.

Notice that the deadline for submitting material for the 1977 AVA Convention (August 12, 13, 14 at the Ormsby House in Carson City, Nevada) is drawing close. Address all shipments to 1977 Convention Chairman, Hal V. Dunn - P.O. Box 114 - Carson City, Nevada 89701.

The April Supplement to Atwood's Catalogue and Supplement #6 to Personal Tokens of Vecturists plus other short features makes for a nice long issue.

THOMAS ELDER MACERATED MONEY PAPERWEIGHT with EMBEDDED LARGE CENT

A 3" heavy glass paperweight with an 1847 Large cent center surrounded by colorful & large bits of macerated money. A card on the bottom reads: "with compliments of THOMAS ELDER, numismatist (etc.). Estimated to contain \$500.00 in macerated money." This impressive object is in mint condition. Will accept best offer or trade for Illinois tokens.

Joe Schmidt Box • Box 471, Bensenville, Ill. 60106

TRADING LIST METCA #3 - BARY D. BENDER

I collect merchant tokens from the towns of Dayton, Waitsburg, Starbuck, Pomeroy, Asotin, Prescott, Touchet, Clarkston, and Pataha, in the state of Washington. The following tokens are for trade for the tokens from the aforementioned towns; tokens from these towns will receive the highest consideration in a trade. I will consider the rest of the state of Washington for trades if you have nothing from my major towns in southeast Washington.

Rub your tokens from these areas as I am interested in die varieties. Please do not assume that because I collect just a few towns that I have all of them. I will consider cash offers if trades are impossible, however, trades will receive the first consideration. Bary D. Bender, 752 N. 74th, Seattle, Wn. 98103.

Hal Birt, Jr., Glass Shoppe Coins, 4325 E. Broadway, Tucson, Arizona 85711. Area Code 602, tel. 793-8811

by Patrick D. Hogan

In the Spring of 1975 I discovered in my own back yard a presumed "bottle check" inscribed on one side C R S/QUART. The piece is uniface, and it is assumed that each letter was stamped into the token individually, as the letters are not in line or evely spaced. The metal is bronze or copper-alloy of some sort, 23 mm.

The natural assumption is that the piece is a dairy token, perhaps from Iowa, or even from the town of discovery, Iowa City. The author has searched in vain, however, for a clue to the identity of "CRS". A check through old Johnson County directories did not reveal any past dairies which these initials would fit. Any information on this maverick would be much appreciated.

CAR WASH TOKEN

Ferguson lists the SPRA-KLEAN CAR WASH INC. token as Iowa City, no. 25. As far as the author can detect, there have been no Spra-Klean Car Washes within the city limits of Iowa City. The car wash was located on Highway 6 in what is known locally as "The Coralville Strip". Referring to old directories, Spra-Klean Car Wash is always given a Coralville address. It is a common error to associate the section of Highway 6 entering Iowa City from the West with Iowa City, and may be the reason this token was assigned to IC instead of Coralville. Thus, it is the author's opinion that this token should be reassigned to Coralville, which until now has had no token issues by its merchants known to collectors.

TRADE TOKEN TOPICS

MONTHLY PUBLICATION FOR TRADE TOKEN COLLECTORS

MERCHANT TOKEN

COLLECTORS ASSOCIATION

道題是曾 每TH

FDITOR'S ECHOES

Trade Token Topics is the official publication of the Merchant Token Collectors Association and is published monthly in Seattle, Washington. Mailing address: 1416 Third Avenue, Seattle, Washington 98101. Bary D. Bender, Editor-Publisher. Telephone (206) 624-4440 Days - Monday-Friday.

Trade Token Topics will be mailed on the first of each month to all members of METCA. Dues will be \$7.50 per calendar year. Every member of METCA is entitled to a free ad of four lines each issue provided it is different each issue.

Display Advertising Rates Per Issue: A D V E R T I S [N G

Full Page - \$12.00 Half Page - \$ 7.50 Qtr. Page - \$ 4.00

Ads placed for three issues or more will receive a 20% discount. Yearly and half-year rates will receive a 25% discount. Make all checks and money orders payable to METCA at the above address. Deadline for all copy is the 20th of each month. The publisher does not accept responsibility for any correspondence mailed to any address other than this one.

Received word from Terry Trantow, Lumber Token Cataloguer, that by late July he'll have trial checklists by state out to principal collectors of his lumber token listings, for additions, corrections, etc. With luck, Terry hopes to have it to the printers before the end of the year.

Regarding membership numbers - most of you received your METCA membership cards in the June issue. Those of you who did not receive them was due to me running out of them. Everyone should have them by the August 1st issue. With a little help from my friends - oh! - I'll have the roster out with everyone's collecting interests.

Exonumia Notebook (pages 1166-8) of The Numismatist features an interesting article on a Thomas Elder paperweight similar to the one featured on page 13 of May 1977 Trade Token Topics that was offerred by Joe Schmidt. David Schenkman gives a lot of interesting background on Mr. Elder and his penchant for issuing well over a hundred tokens and medals. David also provides an article on an unlisted Baltimore token of Smith & Wicks. H. Joseph Levine authors an article on a Ku Klux Klan token.

The Fare Box (June 1977) features the 1977 census of Rare Transportation tokens by Harold V. Ford; the June Supplement to the Catalogue of World Transportation Tokens by Kenneth E. Smith; the June Supplement to Atwood's Catalogue by Ralph Freiberg; the Tenth Supplement to the Car Wash Token Catalogue: and other interesting articles.

EDITOR'S ECHOES

METCA Maverick Editor Lee Nott requests members to review the maverick listings and send him the identification for those they know. Please send new listings in accordance with maverick guidelines as stated in an earlier issue.

Tams Journal (June 1977) features a thirteen page (second part of a series) section on South Carolina Tokens by Randy Chambers; a two-page article on Las Vegas Souvenir Medals by Stephen Alpert; a two-page mail bid sale by Herbert Weiss; an interesting article by Tom Wall on the Live Maple Restaurant and Saloon from Litchfield, Illinois; and a special pre-publication offer on Charles V. Kappen's catalog of California tokens. The notice states the hardbound book contains over 650 pages with nearly 20,000 listings, a maverick index and over thirty full page plates. TAMS and pre-publication price is 13.50 while non-member price after July 15, 1977 is 15.00. Make remittances payable to: Token and Medal Society. Address orders to: N. Neil Harris, Book Editor, P.O. Box 951, Colorado Springs, CO. 80901.

Received word from Lee Nott that Jim Wright has received the Colorado book. However, the two authors are not accepting orders until they get final costs and determine all expenses. Trade Token Topics wil hopefully review it in the August or September issue.

Received a copy of <u>Baker County Oregon Merchant Money</u> by Jim Millard (128 pages). Jim over the years has given untiring devotion in recording, authoring, publishing and coordinating Oregon Token and Medal Society information. It is with a note of sadness to relate that Jim is moving to Alabama immediately and will truly leave a vast void in Oregon token circles. Jim, after finding out what free time he will have available, plans to continue putting out Oregon reference material or help another willing to do so.

Received an inquiry from Mr. Buck Hammer, Box 135, Redway, California, who is trying to locate tokens that were used in his wife's family store in Taft, Missouri, The firm was Casebolt's General Store (circa 1909). To date they haven't been able to locate any of the pieces his wife remembers playing with as a child. Do any of you Missouri or surrounding state collectors have a token or information about this firm? If you do, Mr. Hammer would enjoy hearing from you.

Mr. Roy Swanson of Washington State is seeking information on two tokens. One, $86\frac{1}{2}$ grains and about the size of a nickel, features a bust profile to the left, legend Isaac Earlysman and Sparrow on the bottom. The other piece weight $86\frac{1}{2}$ grains and is about the size of a quarter. The legend reads G.B. Rodney above a bust profile to the right. The reverse reads "Sandwich" above a ship. Both are obviously English. Can anyone help with these two tokens?

June 1977 <u>Scrip Talk</u> reports that John Fliss has been elected NSCA President; Edkins Scrip Book will soon be available (watch <u>Scrip Talk</u> for complete information); dues to increase to \$5 on July 1, 1977; plan adopted for sale of deceased members scrip collections; and the Fall 1977 meeting set for Huntington, W. Va.

The Tenth Anniversay meeting of the National Scrip Collectors Association was held on Saturday, April 30, 1977, at Pipestem State Park, Pipestem,

West Virginia.

Don Edkins, editor of the pending book on coal scrip, spoke on the format of the book noting that it would contain approx. 475 pages and would list info on over 10,300 coal tokens including metal composition, size, correct wording of company name, cout out (if any) and manufacturer information. Approx. 2,500 various cut-outs will be illustrated. Another important feature will be a rarity scale. The scale will be from R-1 to R-10.

The above is just a brief summary of a few major points of the meeting. Complete coverage of the meeting, including the minutes of the business meeting, appear in the June 1977 Scrip Talk.

Received a copy of "Tokenews", quarterly publication of the Florida Token Society, edited by Fred Stanfield. Different features include new tokens, an article on the Polk Company - Haines City, a maverick section, a classified section, and other short articles. Those of you interested in joining the Florida Token Society contact Fred Stanfield, 606 Stanley Dr., Fernandina Beach, Fla. 32034.

TAMS JOURNAL June 1977 has a special 48 page catalog on The Brunswick Token Story by William E. Fowler, Richard G. Magnuson, and Paul F. White. The Three authors, pooling their resources and cataloguing the information they had available, have contributed a truly interesting and outstanding catalog on the several types of Brunswick tokens.

The authors request additional information and maverick identification

of their long list of "Brunswicks".

William E. Fowler, 2402 Pickwick Lane, Austin, TX 78746 Richard G. Magnuson, Wallace, ID 83873 Paul F. White, P.O. Box 185, Fayville, MA 01745

The Fare Box (July 1977) features the 540 tokens to be auctioned at the AVA Convention at Carson City, August 12-13, 1977; the 11th Supplement to the Car Wash Token Catalogue; the July Supplement to Atwood's Catalogue, and Supplement #7 to Personal Tokens of Vecturists.

Does anyone have any information on the S.S. Yale? I have a Rd Br G.F. 50¢ I.T. token used on board ship.

Note on State Gold Dated 1914 (info appeared in June 15, 1977, Coin World) - The following state gold from Idaho, Montana, Oregon and Washington are all extremely rare and seldom offered. They were issued by M.E. Hart Co., 5600 Powell Street, San Francisco, California in 1914. These pieces are usually found only in the complete 36 piece Hart Sets of which approximately 6 were issued and of which 3 are known.

The obverse of this series are all the same except for the name of the state. They depict a rather ugly Indian head facing left, with a star on left and right; the name of the state and gold around the head from the

left to right and the date 1914 beneath the head.

The reverses are all patterned after the state seals and there is no denomination shown on any of the sizes.

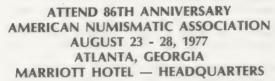

EDITOR'S ECHOES

The June 15, 1977, Coin World featured an article, "Exonumia Primer: What's Collectible?" The article gives general information about exonumia starting a collection, basic references, grading, various exonumia organizations, and how tokens and medals are offerred for sale. This is a good article to clip for reference purposes. Most of the organizations are listed with address, editor, and dues.

Received a notice from the Patrick Mint, P.O. Box 16271, San Francisco, CA 94116 (415-383-4296), that the Bicentennial series of tokens struck has been completed. The dies have been cancelled and no more can be made. Please write them for the sets they have available from that series to sell and for price information on the design they have for 1977: Indian Head, Eagle, Shekel, and Pine Tree Shilling.

The August issue will list all token cataloguers that have notified me of their cataloguing efforts.

Blue Berry Money of Calcis

By Roy J. Wood - as told by 81 year old Mr. H.R. Justice of Vincent, Al. 35178.

Pictured is the store and tokens issued by H.R. Justice in the 1930's. The store located in Calcis, Al. was first operated by his father and then by him until his retirement a few years ago. It is now operated by one of his daughters.

Calcis is located in the hills of Shelby County, a few miles south of Birmingham. The store, both inside and out, still looks much the same as it did during the depression years and carries a fine line of products and

does a thriving business.

The depression years were tough and those that had any kind of job were lucky indeed, and most people were happy to make an honest dollar whenever they could. During May and June of each year people came this way as that's when the wild blue berries ripened. Whole families would go out in the nearby hills and pick. Some larger families would bring in up to 20 gallons a day. These berries would be sold to Mr. Justice, the pay being 50¢ per gallon in his tokens or 40¢ in U.S. Tokens could be spent at his store to buy anything from horse shoe nails to a barrel of flour. The berries would be packed in 1 qt. cartons, 16 cartons to the case and shipped by rail to the northern market, mostly to the Chicago area; where they would be sold at whatever the market would bring, usually around \$4 to \$5 per gal. The dealer would then pay Mr. Justice a percentage of this, and after packaging and shipping cost the profit was small. In the early 1940's the economy picked up and more people were able to get steady jobs, Mr. Justice's pickers became scarce and so the Blue Berry Money of Calcis was packed away.

Interested collectors will be glad to know Mr. Justice still has a few sets 10¢ 25¢ 50¢ 1.00 (brass round). There was supposed to be 5¢ pieces

but none have been found.

If you want, write him, or if you are in the area drop by and see him, talk a few minutes, or an hour, or a half day as I did. All token collectors are surely history buffs and Mr. Justice will talk your ears off about the history of Ole Calcis.

LUMBER AND LOGGING COMPANY TOKENS

I also want descriptions, rubbings, postcards or information pertaining to all lumber, paper or wood-related companies. I have nearly 900 lumber tokens cataloged for future publication, but need your input. I have several lumber and merchant tokens to trade from several states, or will buy.

I'LL TRY TO IDENTIFY YOUR LUMBER MAVERICK - WRITE

I also collect all Oregon tokens, medals, badges

TERRY TRANTOW, P. O. BOX 524, ELLENSBURG, WA 98926

Local collector takes more than token interest in collection of area pieces

If Terry Trantow seems to spend a great deal of time in taverms around Kititas County, it's not because he has a drinking problem. He's a collector.

Not of schooners glasses, stemware, nor even ashtrays, though the latter supposition is getting warm.

He collects tokens and commorative medals, which often are issued by taverns.

As a former collector of coins, stamps, rocks and other items, Trantow said tokens and medals are much more interesting to collect because each one has a story behind it — not only the pieces involved, but the businessmen who circulated them, as well.

Tavems, cigar stores, laundries, transportation companies, bekeries, grocery stores, pool halls, drug stores etc.: Trantow has tokens or / knowletige of tokens that have been offered from an example of each of these.

"Coin sets look all alike," he said; "stamp collecting is getting too expensive;" he did not refer to rock collecting again, probably because he gave it up at a very early age, as most children do.

He became interested in tokens in 1962 while still a teenager living in Portland, Oregon, when a friend gave him a commemorative medal from the Lewis and Clark Exposition that was held in Portland in 1905.

Always a history buff, anyway, that medal launched a whole new hobby for him.

Actually, Trantow manages to combine several interests in his collecting. In addition to history of the Pacific Northwest, he has been fascinated with the logging industry all across the United States; and it turns out that the logging industry is among the most prolific creators of tokens.

Trantow points out that a token was a small, usually coinshaped and weight piece that was made to be used in trade. Most are stamped with a currency designation, from five cents to \$50. They also were stamped with such things as "Good for one loaf of bread," . . . "one beer." etc.

Medals have to do with commemorating events, such as the Lewis and Clark Exposition, Ellensburg's centennial, statehood anniversaries and others. Tokens have proved to be good business through the years, Trantow said. They are inexpensive means of advertising; they were as good as money when redeemed at the appropriate places and were legal gambling tender in others.

"Most states that have laws against gambling for money," he said, "don't prohibit gambling for tokens." He explained that some gaming houses got around the laws by allowing their customers to purchase tokens, use them in games of chance, then redeem their results for the corresponding currency.

Through their many uses, tokens have earned many nicknames, including chips,

which were purchased usually through company stores, in varying denominations.

These were less convenient for customers, because money always changed hands, (from the customer to the store) before a scrip book was issued. Then, the customer had to keep the book with him whenever he made a purchase and the coupons in it were valid only if the store clerk removed them from their perforations.

If a customer lost his book or tore coupons out of the book rather than keep them intact, he forfeited his money.

The principle behind tokens is much more democratic. Money does not necessarily have to have been exchanged, as many businessmen used them for advertising and promotion in much the same way that green stamps are distributed in other states.

In addition, they were small, lost easily and redeemable by anyone. The. nickel denomination was the most common, while those of \$50 and more are exceptionally rare, Trantow said.

His collection also includes examples of such strange denominations as 2½ cents and 6¼ cents. The latter one was from a cigar store, which sold its wares in lots of four for a quarter. If a customer didn't want all four cigars, he could have his change in tokens to be used in the store later.

Trantow said his collection is comparatively small, containing fewer actual tokens than rubbings of tokens he has received through correspondents and contacts at conventions. He is far more interested in the information to be learned from each token than owning them all. By keeping an extensive card file of rubbings, he still has a picture of many pieces at small expense.

His Kittitas County Collection indicates that 77 tokens have been issued in Ellensburg, while new ones appear periodically. It gives him pause to contemplate just how many it is possible to collect in this city alone.

He has tokens from virtually every city and community in the Kittitas valley. Only Liberty has not produced any, that he has been able to discern — and he's asked around quite a bit.

When he goes out to follow a lead for a new token, he always takes his Kittias County book along to show people what he means.

Since tokens have earned so many nicknames, communications sometimes can be a problem. Too, not everyone he meets believes he has collected so many chips from this area.

As elderly area residents scan the leaves of his book, he also pieces together more and more of the valley's history that hasn't yet been recorded in books.

Among the Ellensburg establishments that issued tokens, he has examples from Enfield Dairy, A&E Horsehow Cigar Store, Bowers and White Pastime Pool and Cigars, Buckboard Tavern, Club Cigar Store, Vail's Market, Pioneer Bar

Twoli and Goessling and Simmons Lucky Star, which also issued tokens as Estill and Amosso Lucky Star.

The Cle Elum Confectionery, Pastime Billiard Parlor and Jack's Pool Hall had tokens in the Upper County community, while they were more plentiful in Roslyn: W.J. Lesh, Jean's Pastime, Cascade Coal Co., The Brick, Roslyn Pool Room, Mat and Son, Pioneer Corner, Slim's Place, Jim R. Shearing, King's Tavern and A&J Tavern.

Several spaces in his book are waiting to be filled with entries or rubbings of tokens from Kittitas, Thorp, Ronald, the Lakedale community and Jonesville, which became Beekman after the mine closed in 1922.

Since Trantow's interests extend beyond the boundaries of his immediate territory and the Pacific Northwest, which have been his stomping grounds for

most of his life, he depends a great deal on industrial directories, catalogues and fellow exonumists.

He and other token and medal collectors keep in touch by way of the American Numesmatic Association, the Token and Medal Society (TAMS) and its Northwest branch and the Merchant Token Collectors Association (which is temporarily inactive at this time).

There are more organizations, but Trantow confines his membership to these five.

An area engineer for the Department of Natural Resources, his job takes him to many areas when he can find more and research other tokens and medals for his collection.

He is associated with the Kittitas County Historical Society and has presented his local pieces for display and discussion.

Token tracing is challenge

Collector has one good for a sermon

By BARBARA ARRIGO Times Herald Reporter

C.E. Ziegler didn't discover the intriguing world of tokens until he retired

Tokens most frequently bring to mind the idea of transportation tokens—like those used on subways. But at one time or another tokens have been used for just about everything, as a glimpse at Ziegler's collection will show

He has tokens good for sodas, parking, milk, bread, ferris wheel rides, a pound of crab and even one for a sermon

Ziegler concentrates on "good for" tokens from various places in Michigan He keeps them in large notebooks and has them alphabetized by city. Each is encased in a cardboard holder and covered with plastic for uniform sizing

Many were used in saloons for various types of amusement machines and gambling. A loser would pay in cash, but the house would pay in tokens, which, of course, could only be used at that particular location.

Others are primarily promotional tokens, much like a coupon would be today As such, they come in varying denominations, sizes and shapes.

Before his disability retirement in 1967, Ziegler collected coins. But retirement forced him to sell his coin collection and look for a less expensive hobby

A friend interested him in tokens, which are often acquired in trade or for prices under a dollar in old junk shops

Just buying the tokens, however, isn't nearly enough for those who are really involved in the hobby.

Many tokens only give the name of the business, without any location. Called maverick tokens, they must be tracked down to point of origin before they can be put into a geographical collection like Ziegler's.

He spent most of one day, for example, at the St. Clair County Library, trying to determine if a token marked Harrington Company could have conge from the Harrington Hotel in Port Hu-

But he could find no records listing the

hotel by that name, another collector eventually discovered a Harrington Company in Grand Rapids had issued the token

To determine the origin of a token. Ziegler writes to Chambers of Commerce in cities he considers possibilities. He also spends hours on the phone calling people by similar names if he has a clue to the city.

"I hate to see my telephone bill I've spent \$10 in one afternoon trying to track one down. The location isn't confirmed until someone who used to run the place says so." he said.

Ziegler, who lives at 2705 Grace Road. Port Huron, averages 10-12 hours a day on his collection and answering mail, of which he gets about a shoebox a week

This includes replies to inquiries he's sent, as well as communications with other token collectors around the country. He is a member of the Michigan Token and Medal Society, a branch of a national organization by the same name which puts out a monthly newsletter

"When you get a new token, it's just a vicious circle, because it leads you on to something else," Ziegler said

Although he doesn't travel much because of his health, he does make occasional trips to antique stores to search for new token's, taking various token books along to see if any finds are listed.

"I get a fiendish delight out of finding unlisted tokens and having the only one reported," Ziegler said.

That delight can be short-lived, however, since tokens were almost always printed in batches of 500. For every new fund, Ziegler said, there are probably at least 409 duplicates somewhere.

Token collecting, therefore, is not particularly enriching as an investment. "They have no set value. It just depends how badly you want it," Ziegler said.

"People may have old tokens stuck away, where they're not doing any good. But if they give them to a token collector, it would give them something to look at and talk about," he said.

LOOKING - C. E. Ziegler looks at tokens

Ziegler hopes to get more people interested in token collecting — it helps build up a network of people watching for other people's interests. "If you can get people interested, you can get rid of duplicates," Ziegler added.

In addition to his Michigan "good for" collection, he also has many good luck to-kens and specializes in those with swastikas on them. The swastika was as common a symbol of good luck as the four-leaf clover before it was adopted by the Nazis, according to Ziegler

He also keeps a box of unusually shaped tokens from outside Michigan. Some of the more unusual include a cow's head, which was good for a bottle of milk, in addition to a clover, an acorn, a shoe sole, badges and barrels

Ziegler has even had his own tokens made. One batch commemorates the 125th anniversary of the village of Port Huron in 1974. The other is his own calling card—a token with his name, address and token association membership numbers on it

The newspaper article contains some statements that weren't made by Mr. Ziegler, Clarence notes a few of the misstatements:

1st, I didn't say that I spent most of a day at library. I said almost an hour.

2nd, I didn't say that "the location isn't confirmed until someone who used to run the place says so." I said, "if possible, I like to talk to someone that run the place, and I have talked to people that have had pool halls, etc. back to 1920's." It's hard to go further back than that as that's over 50 years ago. I did talk to owner of a pool hall who had worked at the pool hall, as a kid, during World War I and eventually ended up buying the pool hall and selling it in 1940's.

3rd, I didn't say tokens were printed in batches of 500. You know, a token collector would never say that tokens were printed. Also I said "tokens were probably made in lots of 100's from 100 up. It was probably possible to buy 100, 200, 500, etc". I said that "I have known some businesses that have bought 500," so if you have 1, somewhere there are 499 duplicates.

4th, I didn't say "give to collector". I said "sell".

5th, I didn't say"MTAMS was a branch of a national organization by the same name, etc." I said that I was a member of TAMS which was national in scope, while MTAMS was more local while having members nationally.

6th, I also didn't say that I average 10-12 hours a day on my collection. I said "that a lot of days I put in 10-12 hours a day on my collection". Some days I don't feel like even looking at them, let alone work on them 10-12 hours a day.

VARIETY - Ziegler has many unusual shaped tokens in his collection (Times Herald Photos by Larry Peplinski)

Food Credit Token Info By Jerry Roughton

I recently acquired a set of food credit tokens from an independent grocer here in North Carolina. I asked where he ordered his tokens from. He was very friendly and gave me a sample order form from Personalized Plastics, Inc., La Crosse, WI. I have not seen anything appearing in TAMS or related nublications so I thought perhaps you might like to use this information in METCA. I am not sure how long the company has been in business, but the tokens I received showed that the manager must have reordered because of variations in type face and legend. He said he had used them for at least three years. Perhaps one of the METCA members in Wisconsin, living near La Crosse could do a little checking and let others know.

TRADE TOKEN TOPICS

MONTHLY PUBLICATION FOR TRADE TOKEN COLLECTORS

MERCHANT TOKEN

COLLECTORS ASSOCIATION

AUGUST

ATTEND 86TH ANNIVERSARY AMERICAN NUMISMATIC ASSOCIATION **AUGUST 23 - 28, 1977** ATLANTA, GEORGIA MARRIOTT HOTEL — HEADQUARTERS

GEORGIA TOKENS

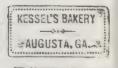

Trade Token Topics is the official publication of the Merchant Token Collectors Association and is published monthly in Seattle, Washington. Mailing address: 1416 Third Avenue, Seattle, Washington 98101. Bary D. Bender, Editor-Publisher. Telephone (206) 624-4440 Days - Monday-Friday.

Trade Token Topics will be mailed on the first of each month to all members of METCA. Dues will be \$7.50 per calendar year. Every member of METCA is entitled to a free ad of four lines each issue provided it is different each issue.

Display Advertising Rates Per Issue;

Full Page - \$12.00 Half Page - \$ 7.50 Qtr. Page - \$ 4.00

Ads placed for three issues or more will receive a 20% discount. Yearly and half-year rates will receive a 25% discount. Make all checks and money orders payable to METCA at the above address. Deadline for all copy is the 20th of each month. The publisher does not accept responsibility for any correspondence mailed to any address other than this one.

EDITOR'S ECHOES

Gaylor Lipscomb, Ohio exonumist, reminds collectors and dealers about the Token and Medal Show to be held Saturday, October 8, 1977 from 10 A.M. to 10 P.M. at the Holiday Inn (S.R. 48 and I-70) in Englewood, Ohio (Dayton-Northwest). Tokens and medals bought, sold and traded, no admission charge, traders welcome, bourse tables available, food and lodging available and close to Dayton airport. For more info., contact: Gaylor Lipscomb, 5010 Winton Road, Fairfield, Ohio 45014, tel. 513-863-5614 or Melvin Hayes, P.O. Box 24049, Cincinnati, Ohio 45224, tel. 513-522-5133.

The Tenino Wooden Money Society has changed the date of their wooden money show to September 25th, 1977. The Society welcomes displays of tokens and also will have some tables for trading or selling. People can contact Art or Eilene Dwelbey at P.O. Box D, Tenino, Wash., 98589, for more information.

"Exonumia Notebook" in the <u>The</u> <u>Numismatist</u> features some unlisted St. Louis World's Fair Medals; some medals pertinent to the Robert E. Lee Monument; Lyt Jones' Bathing and Shaving Saloon token; and an unusual bi-metal token from the Merchants' Bar of Minneapolis, Minnesota, in which the outer rim of this token is aluminum and the center section is brass (exactly the opposite of the usually encountered bi-metal token). The four articles are authored by David E. Schenkman and appear on pages 1374 - 1377.

Bebee's ad on the back page of $\underline{\text{Trade}}$ $\underline{\text{Token}}$ $\underline{\text{Topics}}$ contains most of the $\underline{\text{important books on medals and tokens}}$.

Be sure and note the new mailing address of METCA Maverick Editor, Lee Nott.

Joseph Connolly, New Jersey collector, recently joined METCA after seeing an ad used in a numismatic periodical that was picked up and used by The New York Times as a filler.

Regarding the Sparrow Token (page 3 of July) - Lee Nott says it is described in R.C. Bell's Unofficial Farthings 1820 - 1870.

Jim Griffis, Michigan collector, sent in the following clipping that appeared in the June 27th, 1977, Detroit Free Press:

A LITTLE NOSTALGIA: Remember "charge coins"? That's what spend-thrifts used to use to spend themselves into debt before the modern day charge card was invented. J.L. Hudson Co. used it from the turn of the century until approximately 1951. The company now has a contest to see who can come up with the oldest coin, and has been snowed under with entries - about 500 of them. Some of the coins are 60 years old. Top prize is \$250, and the contest ends Monday.

Jim tried to get information on who had the tokens, where they were, etc. but didn't succeed.

The Northwest Token and Medal Society, Seattle, Washington, is striving to get out before the end of the year a book on Washington State exonumia and scrip. As I get more information on the book's content further notices will appear.

Max Heinzmann, Washington State token collector, writes to note that a recent Alaska Airlines magazine features an article on the bingles used when Roosevelt sent the homesteaders to the Palmer area in Alaska.

Benj Fauver, Nebraska, Dewey, and game counter collector, visited METCA headquarters in July while in Seattle. Benj, a transplanted Pacific Northwesterner, managed to find a few items while here from California.

Allan Elvasaas, Alaska token collector, joined METCA while visiting Seattle from Seldovia, Alaska. Allan has collected for several years now and has found many Alaska tokens in Seattle over the years, however, he is a new member for METCA, and we welcome him.

Received my copy of <u>Colorado Merchant Tokens</u> by Jim Wright and Lee Nott and was favorably impressed by its layout - the alphabetical listing of towns with the county below in parenthesis; the nice historical photos of main street scenes and businesses; the extra write-ups on different merchants; the extensive listing itself; and the business index lists in the back that appear along with suspected Colorado tokens and Elk club listings. Hats off to Jim & Lee for a truly outstanding catalogue and to those of you who cooperated with them in this arduous undertaking.

EDITOR'S ECHOES

Notice - METCA will have half year memberships effective immediately. Those wishing to join for the last six months of 1977 can do so at 4.00. Members joining July 1st or later will get the last six issues of Trade Token Topics. Yearly calendar year membership is 7.50 and you are entitled to all issues from Jan. 1977 through Dec. 1977 regardless of when you join.

Those of you who join at various times of the year should peruse the earlier issues of Trade Token Topics and write those who have run trading and sell lists of material you might be interested in. Everything listed does not always get sold or traded. For a nine cent card you might still have a shot at a token that was listed <u>before</u> you joined, and one you thought was no longer available.

Since this is METCA'S sixth year of existence all new members (those who have not had any prior METCA membership or inactive for a few years) of METCA will begin with membership number 600 and proceed from there. Those who are new membership number is listed on another page(s). This is the number you use if you send in mavericks to the Maverick Editor etc. No numbers have been changed so old members who have been active still have their old number which will appear in the membership roster (hopefully in September). Those of you who have joined METCA but have never filled out an application form with your collecting interests, please drop me a line with your interest so it can be included on the membership roster. The roster will have your number, name, address, and collecting interest.

The Society of Ration Token Collectors in its eleventh year of operation publishes a quarterly bulletin, The Ration Board. Their 300 plus page catalog lists all known ration items from the U.S. and is \$10.00 for non-members. Orders should be sent to Mrs. N.J. Keel, Route 1, Guymon, OK 73942. Further info. on the SRTC can be obtained from Mrs. Viola Thomas, P.O. Box 20285, Sacramento, Calif. 95820. (July 13, Coin World).

A reprint edition of Ed Frossard's Franco-American Jetons has been released by Frank & Laurese Katen, publishers (page 68 July 13 Coin World). The booklet sales for \$6.00 from the publishers at 13311 New Hampshire Ave., Silver Spring, MD 20904. The catalog describes 51 jetons and one medal. Two photographic plates illustrate 46 of the pieces.

CNA (Canadian Numismatic Association) holds its convention Aug 1-7 at Vancouver, B.C. The Vancouver Numismatic Society hosts the week long activities which include the Canadian Wood Collectors meeting August 4th at 9 A.M. and the Saturday meeting of the merchant token collectors.

H.C. Schmal, Arizona Exonumist, offers an exonumia listing for a $13\,$ ¢ stamp by writing to him at 3136 E. McDowell, Phoenix, Ariz. 85008.

July 13 <u>Coin</u> <u>World</u> features "Exonumia Primer" on page 24; a nice article on the Society of Ration Token Collectors on page 30; wooden nickel round-up on pages 32 & 48; and pg. 46 features highlights of Paul Cunningham's May 30 mail bid sale (which was evidenced by the high interest in scarce coal scrip), and Paul's 22nd sale in July will feature 300 bronze & silver medals and the first part of a group of 5,000 "good-fors". The sale catalog will be available for 35¢ in coins or stamps from Paul Cunningham, Box 1, Tecumseh, Mich. 49286.

5

Page 32 of July 27, <u>Coin World</u>, will reveal a picture of Mike Pfefferkorn, active Missouri exonumist, as a committee member of the Missouri Numismatic Society, which invites all to attend their 18th annual coin festival at the Marriott Motor Hotel near the Lambert municipal airport in St. Louis.

Tom Delorey authors a full page article on "Exonumia runs broad collecting gamut" on page 46 of July 27, <u>Coin World</u>. Included in the article are photos of Prisoner of War camp tokens, German beer tokens, plantation tokens, fantasy token, coal mining tokens of the Ingle System, and other interesting pictures.

California and Western States collectors should note on page 47, <u>Coin World</u>, the informative article on the forthcoming catalog of California tokens by Charles V. Kappen. 650 pages, 20,000 listings, 30 full page plates comprise this long-awaited ten year project. The book is now available for 15.00. Make remittances to TAMS, N. Neil Harris, Book Editor, P.O. Box 951, Colorado Springs, Colo. 80901.

Information on the Society of Medalists can be obtained from the article on page 51 of July 27, Coin World. Further information can be gained by writing the Society of Medalists, Box 771, Danbury, Conn. 06810.

Scrip Talk, August 1977, announces the fall meeting of NSCA at Huntington, W. Va., on Oct. 1, 1977. Cole S. Cuttle appeals to NSCA members to come forward with ideas on a new logo exemplifying the association. Other features include: "Ghost Towns of New River Canyon by Jerry Taylor" (from the magazine Wonderful West Virginia, January, 1973); the second mail auction sale of the Donohoe Scrip Collection; and a reminder of the Token and Medal Society (TAMS) meeting at ANA in Atlanta in August.

Dick Grinolds, 627 Polk St. NE #9, Minneapolis, Minn. 55413, has a 585 item fixed price list of exonumia (trades for Minnesota available). A thirteen cent stamp will no doubt get you this list of trade tokens, medals, etc.

Had three nice chats with out of state collectors in July. It was nice hearing from Mike Pfefferkorn, active exonumist from Missouri, who is ever active in token projects. Mike is currently working on several projects, i.e., analysis of token types produced by St. Louis engravers and die sinkers; compiling data on Missouri tokens and medals; and working to enlargen the number of Miller's listings along with information on the issuers.

Had a long chat with Birney W. Powell, Jr., Idaho and Nevada token collector, who had kind words for many of you collectors in his trades for Idaho and Nevada tokens. Hopefully, in the near future, we'll have a catalog on Nevada merchant tokens. In the meantime, however, we do have the John Mutch listing of Idaho mavericks and the Len Hoskin list of Nevada mavericks (see the July issue for Idaho list and March issue for the Nevada address of Len Hoskins).

Steve Tureen called to note he is cataloguing South Dakota tokens and has a change of address: P.O. Box 16256, San Diego, CA 92116. Steve expressed his appreciation to the advanced collectors of South Dakota for their cooperation in his cataloguing efforts and seeks rubbings and information on any South Dakota tokens you may have.

Received a copy of A.T.T.S. Newsletter, the official journal of the American Tax Token Society, under the presidency of Tom McMann. The Jan - April 1977 issue includes: the president's message; more Illinois Provisional Varieties by Rocco A. D. Giacomo; Minnesota Anti-sales Tax Items (Lavender Penny) by Tom McMann; History of Tenino (Washington State) Sales Tax Tokens by Tom McMann; ATTS Seek and Find Puzzle by George Van Trump, Jr.; and secretary and treasurer reports.

Membership in ATTS is 3.00 per year. Checks or money orders are payable to: American Tax Token Society, % George Van Trump, Jr., ATTS Sec., P.O. Box 10656, Edgemont Branch, Golden, Colo. 80401.

Chatham, Ontario issue tokens which have a 1.00 trade value (features Chatham car for you car collectors). Available by mail for \$1.30 postpaid from the Chatham and District Chamber of Commerce, 275 King St. West, Chatham, Ontario, N7MIE9 (page 20 Coin World).

Patrick Mint article - cancelling four original dies for tokens and new issues available - appears on page 21 Coin World, July 20, 1977.

Noted that R.W. Colbert, Georgia exonumist, received "outstanding" recognition for his display at the Georgia Numismatic Association's 13th annual convention at Atlanta in July.

Williges, P.O. Box 445, Wheatland, Calif. 95692 offers token and medal list on request.

Page 64 in Coin World notes Majestic Coins, P.O. Box 3401, Station B, Calgary, Alberta, Canada, T2M 4Ml offering tokens as part of their list.

Those of you interested in joining a World's Fair Collectors Society, Inc. might contact Michael R. Pender, 148 Poplar Street, Garden City, N.Y. 11530 for further information.

Thanks to those of you who provided information on the S.S. Yale token and the English tokens that appeared in the July issue.

METCA will have a 1" round brass token for ANA in August! R.W. Colbert, Georgia numismatist and exonumist, designed the token and will have them available at ANA in Atlanta, Georgia, August 23-28, 1977. Hopefully METCA will garner more members at ANA. If you are at ANA drop by and visit with Ray. I'll try and have extra copies of Trade Token Topics available for your collecting friends. METCA members will get their token in the September issue. Ray has worked hard and corresponded many times of late effectuating a design we deemed appropriate for ANA. METCA thanks, Ray, for his hard work and diligence.

"Tams sets August printing for R.W. Julian's study of U.S. Mint medals (1792-1892)..." (27 July Coin World). Available to TAMS members at \$35.00; others may place orders for \$37.50. Make payment to TAMS, N. Neil Harris, TAMS Book Editor, P.O. Box 951, Colorado Springs, Colo. 80901.

A brief summary of the summer issue of the <u>Journal of the Civil War Token Society</u> appears on page 24 of the July 27, 1977, <u>Coin World</u>. Society president Richard Rossa announces 3 P.M. August 27, as the time of the annual CWTS meeting at ANA. Annual dues to the CWTS are 5.00. Information is available from secretary Gail Levine, 6222 Little River Turnpike, Alexandria, VA. 22312.

MEET WILLIAM E. BOWMAN

By Joseph Schmidt

So often we neglect to research our tokens, thereby robbing ourselves of an opportunity to learn a small piece of history. On rare occasions our token tracing enables us to meet extraordinary individuals. An 1860S United States half dollar I purchased counterstamped with the simple wording BOWMAN - PHOTOGRAPHER - OTTAWA, ILL. on the obverse acquainted me with such an individual, Mr. William E. Bowman!

Born in Town Hill, Pennsylvania in 1834, William Bowman was the eldest of twelve children. Obliged to assist his father with farmwork from dawn to dusk, young William never benefited from a formal education. In 1848 the family located to Cambria, Wisconsin (then known as Langdon's Mill) where, at the age of 14, William helped his father build the first permanent house.

In later years after extensive travel throughout Illinois and Wisconsin. Mr. Bowman recieved his first instruction in photography from De Witt Rawson. About 8 to 10 years later in 1865 Mr. Bowman settled in Ottawa, Illinois and by 1880 had one of the states finest and most extensive photographic galleries. His photographs brought him no less than six silver medals at state fairs. Later Mr. Bowman was to serve as Vice - President of the National Photographic Association. In addition to these accomplishments, he served as Alderman of Ottawa for 2 years, a trustee of the Ottawa Academy of Natural Sciences, a member of the local Knights Templar chapter and secretary of the La Salle county Agricultural Society. Clearly William E. Bowman's lack of formal schooling failed to halt his effort towards becoming an educated and respected member of his community! Finally, in December of 1881, Illinois Congressman William Cullen endorsed a citizens petition and recommended the appointment of william E. Bowman as Postmaster of Ottawa to President Chester Arthur. On January 1st of 1882 Mr. Bowman took possesion as Postmaster. William E. Bowman remained an active and respected member of the community until he retired to Los Angeles, California in 1914 at the age of 80. Thanks to 3 stamped lines on a half dollar, I am happy to share with METCA members a story that might never have been told. I must also point out that the story behind the token remains one of the most fascinating aspects of our hobby!

TOPICS

MERCHANT TOKEN

COLLECTORS - ASSOCIATION

Trade Token Topics is the official publication of the Merchant Token Collectors Association and is published monthly in Seattle, Washington.

Mailing address: 1416 Third Avenue, Seattle, Washington 98101. Bary D.

Bender, Editor-Publisher. Telephone (206) 624-4440 Days - Monday-Friday.

Trade Token Topics will be mailed on the first of each month to all members of METCA. Dues will be \$7.50 per calendar year. Every member of METCA is entitled to a free ad of four lines each issue provided it is different each issue.

Display Advertising Rates Per Issue:

Full Page - \$12.00 Half Page - \$ 7.50 Qtr. Page - \$ 4.00

Ads placed for three issues or more will receive a 20% discount. Yearly and half-year rates will receive a 25% discount. Make all checks and money orders payable to METCA at the above address. Deadline for all copy is the 20th of each month. The publisher does not accept responsibility for any correspondence mailed to any address other than this one.

EDITOR'S ECHOES

Gleanings from 3 Aug. 1977 Coin World include: (1) Gregory Buck, Penfield, Ill. writes for info about Harry's Tap tokens from Penfield, Ill. in denominations of 5¢, 10¢, 25¢ and 1.00; (2) E. Doty Coty, Richmond, Ky. seeks info on CCC tokens; (3) mention of Brunswick token catalog by William. Rowler, Richard Magnuson, and Paul White; (4) mention of the South Carolina catalog by Randy Chambers; and page 44 relates information on TAMS 1977 medal depicting Stone Mountain Memorial.

August 1977 The Fare Box reminded all of the AVA 27th Annual Convention in Carson City, Nevada on August 12-14. Other features include: August New Issues Service; Aug Supplement; ULATCO News; Interesting notes by Ralph Freiberg; and other short: features (ten-year supplement to Trade Tokens of Wisconsin. Available from author for 5.00 - Gerald Johnson, 1921 Chase St., Wisconsin Rapids, WI 54494).

10 August 1977 Coin World features Exonumia Primer on page 20. Collectors should cut this section out as it gives information on many of the exonumia organizations, i.e., dues, address, editor.

TAMS Journal, August, 1977, features the third part of the South Carolina token catalogue by Randy Chambers p. 136-144; New Hanover Jack Varieties by Stephen Alpert p. 152; Mail Bid Sale by Herbert Weiss p.153; Latreyte and the Sample Room Saloon (pictorial white-metal token of Texas) by Ernest Beerstecher p. 154-6; and Maverick Section p. 160-171. TAMS membership roster accompanies the issue.

Attention Pacific Northwest Collectors - The August 7, 1977, Seattle Times carried a full page listing of the 466 post offices in Washington. This is an excellent reference for small towns and population figures for those collecting tokens of the state of Washington.

Fayville Coin & Token Cc., Box No. 185, Fayville, Mass. 01745 (Paul F. White) offers mail bid auction #8. A solid offering of 1,454 items can be yours for 35¢ postage. Closing date of the sale is 24 September 1977, ample time to send off for it and submit a bid for one of the many outstanding exonumia items featured in the sale.

A few highlights of the 17 August 1977 Coin Vorld ANA issue include: picture of Augusta, Georgia Clearing House Association Certificate (p.17); information on the "Guide Book of Wooden Money" (p.16); and numerous short features on the various exonumia available at ANA.

The major focus of interest in the 17th August issue of Coin World is the beginning of R.W. Colbert's efforts at cataloguing Georgia's trade tokens. Page 90 commences with the "A" town listings of Georgia's 159 counties. Many of METCA's members are listed as contributors to this compilation.

Ray, one of Georgia's leading numismatic researchers, is featured on page 54 as part of the Atlanta team putting ANA together. Ray is security chairman for ANA. Ray's current research efforts include a catalog of Georgia trade tokens and a draft on the medallic portraits of Adolph Eitler (collaborating with William P. Hyder). With all the time and effort Ray has put into getting ANA ready, the duties he performed at ANA, the start of his catalog, his recent hospitalization, designing the METCA token for ANA, he has found time to have some issues of Trade Token Topics and application forms available to ANA for METCA.

Highlights of <u>Canadian Coin News</u>, August 29, 1977, include articles of mention regarding: (1) the <u>244</u> page supplement to the Atwood Catalogue of Transportation Tokens; (2) the R.W. Julian study of Medals of the United States Mint, the First Century, 1792 to 1892; (3) Charles V. Kappens's catalogue of California tokens; and last, but not least, a short review of the latest issue of the quarterly <u>Journal of the Civil War Token Society</u> in which "Horatio" states "the pendulum is swinging from numismatics to exonumismatics."

Fred T. Stanfield, editor of the "TOKENEWS", quarterly publication of the Florida Token Society, exchanged bulletins with METCA. Highlights of the publication include: review of the July 2nd meeting at Clearwater; Manning's Mavericks (a listing of Florida mavericks from "F" through "N"); listing and illustration of new token finds; report on the new Alachua County Fare Tokens reported by C.R. Clark; and a reminder that the next meeting of the Florida Token Society will be at Ellinor Village in Ormond Beach on Friday and Saturday September 30 and October 1, 1977. Rooms (8.00 per night) can be arranged by contacting Vic Amorose, P.O. Box 92, Ponte Vedra Beach, Florida, 32082, by Sept. 15th.

Birney W. Powell, Jr., Idaho and Nevada token collector, dropped into METCA headquarters for a nice visit on his return from vacation. It was nice meeting Birney and his family. We had a nice discussion on tokens and even worked on a future trade.

I certainly enjoy meeting token collectors and encourage all who are in the Seattle area, whether on a business trip or here for pleasure, to drop in at 1416 3rd Avenue (heart of Seattle) for a visit.

Incidentally, I enjoy the phone calls I get from you as well as the nice letters I receive.

Lee Nott, your Maverick Editor, called to remind all that he is anxious to receive new maverick listings for Trade Token Topics. Lee's mail has been real slow of late due to it being wrongly zip-coded. He adds that it is coming through in spite of being hand corrected.

Thanks to all of you who are sending in maverick lists and to those

of you who make the attributions.

Gary Taylor, Colorado token collector (formerly of Rifle, Colo.), residing in New York, called to mention an improper address in the August list of Colorado collectors. (It is now corrected in this issue). Gary will be heading out this way on his vacation in the fall and I am looking forward to meeting him when he does.

I had sincerely planned on going to AVA in Carson City in August, however, I had district fast-pitch softball playoffs. During ANA I was in Boise, Idaho, for regional playoffs. (I didn't even find time to call John Mutch, Idaho token cataloguer and collector, while I was there - pardon me, John). While I was gone Jon Aho, collector of Oregon, Idaho, and Washington, was up from Gearhart, Oregon for a fisit to Seattle. While I missed him, Clarence Heppner, token dealer and collector across the street from me, met him and made a few trades. I sincerely plan on getting around more to the local and regional coin shows this fall, so hope to see some of you then. Martin Kenney, Arizona & Mevada collector, has recently moved to Olympia, Washington, so hope he manages to get over to Seattle or possibly I'll see him at a coin show soon.

METCA fall issues will probably be a little late as major holidays seem to hamper my well-intentioned deadline periods.

At any rate, now that ANA, AVA, and CNA are over with, maybe the fall will bring more trading and mail bid listings for Trade Token Topics. For the remainder of the year full-page ads will be \$10.00 and half-page ads at \$5.00. Why not take advantage of these reduced rates to list your token stock for trade or sale. Remember listings can include transportation, parking, car-wash, Civil War and merchant tokens, postcards, dog tags, small collectibles, and just about anything within reason. Let's make these fall issues packed with good trading lists.

Gleanings from the August 31, 1977, Coin World include: (1) photo of Norman Williams, Education Chairman and CNA Coordinator, at CNA in August. Norm is a serious collector of tokens from British Columbia and the Yukon. Norm, a long-time active METCA member, was one of many who deserves a great deal of credit for the success of theis years CNA; (2) wooden monty round-up on page 20; (3) page 29 contains Ray Colbert's listing of Georgia Trade Tokens; and (4) page 36 features price realizations on choice tokens in Rich Hartzog's June 27th Exonumia sale. Information on future subscriptions to forthcoming Hartzog exonumia sales can be received by addressing Rich at P.O. Box 4143, Rockford, Ill. 61110.

Attention Pacific Northwest Collectors - The August 7, 1977, Seattle Times carried a full page listing of the 466 post offices in Washington. This is an excellent reference for small towns and population figures for those collecting tokens of the state of Washington.

Fayville Coin & Token Cc., Box No. 185, Fayville, Mass. 01745 (Paul F. White) offers mail bid auction #8. A solid offering of 1,454 items can be yours for 35¢ postage. Closing date of the sale is 24 September 1977, ample time to send off for it and submit a bid for one of the many outstanding exonumia items featured in the sale.

A few highlights of the 17 August 1977 Coin World ANA issue include: picture of Augusta, Georgia Clearing House Association Certificate (p.17); information on the "Guide Book of Wooden Money" (p.16); and numerous short features on the various exonumia available at ANA.

HEPP'S WANT LIST OF WASHINGTON STATE MERCHANT TOKENS Clarence E. Heppner, 203 Jones Bldg., Seattle, WA 98101 Town and State on token desired; will trade or purchase If for sale, please state your price, rub or list

Allyn, Ashford, Buena, Bridgeport, Beaver, Bordeaux, Beverly, Burbank, Bow, College Place, Coupeville, Clayton, Custer, Camp Lewis, Cunningham, Creston, Connell, Clear Lake, Carnation, Charleston, Cumberland, Dennison, Dishman, Dupont, Duvall, Deming, Easton, Everson, Electric City, Eltopia, Ewan, Ford, Frances, Fallbridge, Grotto, Gig Harbor, Galvin, Hanford, Hoodsport, Hooper, Hillyard, Hadlock, Hockinson, Hobart, Harrah, Inchelium, Ione, Kiona, Kettle Falls, Klikitat, Kititas, Loomis, Lyman, Long Beach, La Center, Lincoln, Lamont, Mead, Monohan, Mayfield, Marcus, Mason City, Machias, Mesa, Malone, Moxee City, Matlot, Moclips, Metaline Falls, Malott, New Castle, Napavine, Naches, Neah Bay, Northport, National, Orting, Outlook, Cthello, Oso, Potlatch, Forter, Prescott, Pateros, Pataha, Paha, Quilicene, Richland, Roy, Ryderwood, Ruff, Retsil, Rochester, Ridgefield, Republic, Ravendale, Roosevelt, Satsop, Selleck, Salkum, St. John, Tumwater, Three Lakes, Taholah, Twisp, Uniontown, White Bluffs, Wilkeson, Winina, Whatcom, Wallula, Youngstown, Valley, and Zillah.

ADDITIONAL TOKEN CATALOGUERS

KENTUCKY: Joe Ledonne, 58-16th St., Newport, Kentucky 41071.

MISSOURI: Chuck and Rosie Littlefield, 4841 Hannover, St. Louis, Missouri 63123

WEST VIRGINIA: Tom Hitt, P.O. Box 970, Defiance, Chio 43512.

PENNSYLVANIA GOOD FOR 5 CENT TYPES: Robert K. Glasgow, 2133 E. Philadelphia,

York, PA 17402.

NEBRASKA: Paul Cunningham, Box 1, Tecumseh, Michigan 49286.

MICHIGAN: Paul Cunningham, Box 1, Tecumseh, Michigan 49286.

CATALOUGING EFFORTS AND COMMENTS

LUMBER: Note Terry Trantow's listing in this issue.

GEORGIA: August Coin Worlds commence with R.W. Colbert's listing of Georgia.

ARIZONA: See John Hamilton III's town census listing in this issue.

MICHIGAN: Paul Cunningham has a loose leaf "catalog" available at \$2.00. It includes only the tokens Paul owns, however, it is a good start.

NEBRASKA: Paul Cunningham has upgraded Hargett's list and has added listings from many Nebraska collectors. He has a loose-leaf catalog available for \$2.00. Roger Bolz, 3629 N. 60th, Apt. 12, Lincoln, Nebraska, wants to be considered as a cataloguer, too. He has a copy of Paul's catalog and with his collection the number of Nebraska tokens known should increase considerably.

OTHERS: Consult pages 20 and 21 of the August issue of Trade Token Topics.

WANT LIST OF MIKE O'BRIEN, 2305 COACH AND SURREY, AURORA, ILL. 60506

Arizona Token Census

by John T. Hamilton III

This town listing is offered for both the collector of Arizona tokens and for the non-collector, looking for trading stock.

The smaller the number of tokens known from a town, the more accurate the census is likely to be. The number in the second column reveals the "rarity" of a town, but does not reveal the "availability". As some collectors collect only one from each town, and other collectors (such as myself) collect one of every kind of token, the "availability" of a particular token or any token from a particular town, needs to be determined. One method that hopefully will be helpful, is to subtract the figure in the first column from the figure in the second column, which gives one the number of duplicates. For example, the towns of Ashfork and Black Diamond. Each is listed as having a census of ten tokens. However, subtracting the first column from the second column reveals there to be three duplicate Ashfork pieces, and nine duplicate Black Diamond pieces. One could therefore conclude that it would probably be harder for a collector to add an Ashfork token to his collection than a Black Diamond.

The following abbreviations are used and are only used when they apply to all the tokens known from the town: D = Dubious Attribution, MO = Modern, S = Set, R = Rumored to Exist, MA = Maverick, F = Fake or Fantasy. The abbreviation "S" means that all the tokens listed from that town are from one set, such as the town of Glenbar, that has one merchant who issued a 5-piece set. No abbreviations follow the town of Bisbee because tokens from Bisbee include all the above forementioned classifications of tokens. Fakes or fantasies are not included in the census unless they are the only type known from the town.

I intend to keep this census as a continuing project until a proper catalogue is published. I would appreciate information. particularly on unlisted or scarce towns.

The Indian trader tokens listed in the census are more likely to contain error than other categories of tokens because there are various hoards of Indian trader tokens whose owners are secretive.

This list cannot be used as a substitute for judgment and common sense in acquiring tokens, but hopefully will be a valuable aid.

ANNOUNCING!!!

EDKINS' CATALOGUE OF COAL COMPANY STORE SCRIP (TOKENS)

FIRST EDITION 1977

Describes in detail and gives approximate market value, through a rarity scale rating, of every piece of coal company store scrip token that has been submitted to the author for listing purposes over a five-year period, up to December 31, 1977.

Five hundred pages (approx.) containing over 10,000 described tokens, with many pages of illustrations. Indexed for easy attribution. A monumental work, long awaited by experienced and novice collectors. A valuable addition to the numismatic libraries of collectors, dealers and institutions.

Compiled by Donald O. Edkins

I have many other Idaho traders besides those listed in this display ad. There are lots I still need - interested in all Idaho and Montana

Mike Fritz 519 Davidson Coeur D'Alene, Idaho 83814 208-667-4164

.ETCA kembers: Work on the lumber token catalog is progressing nicely. My thanks to the many collectors to date who have unselfishly provided me with lots of information. If I have not yet answered your reply, please accept my apologies for not answering sooner. This job is somewhat overwhelming! I currently have nearly 1100 differnt companies cataloged, but I lack much information from a number of states. If any readers have information on lumber pieces (including any and all scrip) from that states below, please advise. I'll reply to your letter with a list of what information I have, and return your postage. Numbers in () indicate the number of companies I have good information on:

CONNECTICUT (1) MARYLAND (1) OHIO (3) DELAWARE (0) MASSACHUSETTS (2) PENNSYLVANIA (5) FLORIDA* (21) MISSOURI (8) RHODE ISLAND (0) ILLINOIS (7) NEBRASKA (5) VERMONT (0) INDIANA (0) NEW JERSEY (0) VIRGINIA (5) KANSAS (4) NEW MEXICO (0) WYOMING (0) MAINE (1) NEW YORK (2) Any Maverick (39)

• (I lack information on over 40 known pieces). There must be more than this!

In fact, just drop a postcard to me, and I'll send you a list for any of the above states. Make sure your state is well represented! TERRY TRANTOW PO BOX 524 ELLENSBURG, WASH. 98926

FOR TRADE OR SELL; BEST OFFER ACCEPTED. Bary D. Bender, 752 N. 74th, Seattle. Washington 98103. I collect the towns of Dayton, Waitsburg, Starbuck, Pomeroy, Asotin, Pataha, Prescott, Clarkston, and other towns of southeast Washington. Tokens:

TRADE TOKEN TOPICS

MONTHLY PUBLICATION FOR TRADE TOKEN COLLECTORS

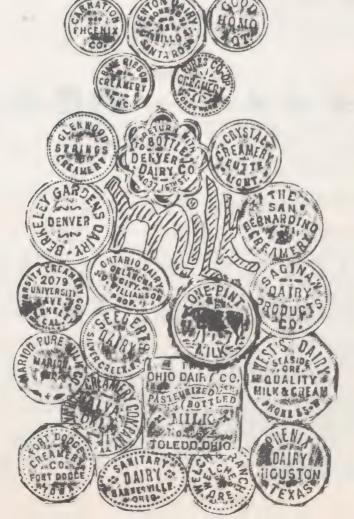

MERCHANT TOKEN

COLLECTORS ASSOCIATION

Trade Token Topics is the official publication of the Merchant Token Collectors Association and is published monthly in Seattle, Washington. Mailing address: 1416 Third Avenue, Seattle, Washington 98101. Bary D. Bender, Editor-Publisher. Telephone (206) 624-4440 Days - Monday-Friday.

Trade Token Topics will be mailed on the first of each month to all members of METCA. Dues will be \$7.50 per calendar year. Every member of METCA is entitled to a free ad of four lines each issue provided it is different each issue.

Display Advertising Rates Per Issue:

- \$12.00 - \$ 7.50 - \$ 4.00 Full Page Half Page Otr. Page

Ads placed for three issues or more will receive a 20% discount. Yearly and half-year rates will receive a 25% discount. Make all checks and money orders payable to METCA at the above address. Deadline for all copy is the 20th of each month. The publisher does not accept responsibility for any correspondence mailed to any address other than this one.

Recently a METCA member sent a rubbing and drawing of a Vermont token to Dean M. Ryder, 404 College St., Burlington, Vermont 05401. Unfortunately the letter was misplaced by Mr. Ryder and he does not know the name of the person. He would appreciate it very much if that person would write again so he could send him some tokens.

Robert F. Slawsky, P.O. Box 423, Rockaway, N.J. 07866 should be included as a token cataloguer of New Jersey tokens.

A recent address change: H.C. Schmal, 3105 E. Osburn, Phoenix, Ariz. 85016.

A few members have expressed a desire to commence paying for METCA dues for 1978. Their reason (and a valid one) is so that all the clubs they belong to seem to renew at the first of the year and to pay for all of them at once creates a hardship during the holiday season. With this in mind METCA will begin accepting dues for 1978 (\$7.50) effective this issue.

Williges, P.O. Box 455, Wheatland, CA 95692, (916) 633-2732, has a fixed price list (a new twenty-page one) he will gladly send to any member

of METCA upon request.

Paul Cunningham, Box 1, Tecumseh, Michigan 49286, features a fall listing of over 2,645 merchant tokens by state, the deadline, of which, is tentatively set for October 5th.

Josef Smith, Alaska token and post card collector, called me in Sept. to shake some Alaska material from me. We talked so long on the phone that evening he probably won't be able to afford any tokens for awhile.

Gene Kirchsten, Oregon, Wash., Idaho, and Montana token collector, visited METCA headquarters in September. It was nice seeing Gene again and after discussing the state of token affairs in the Pacific Northwest we managed to work out a nice trade. While Gene was in town he visited Clarence Heppner, Washington state token collector and dealer, and concluded a few more trades.

2

Clarence Ziegler Jr., Port Huron, Michigan, token collector called me in September and we really got carried away on the phone. It seems like it is difficult to get off the phone when your are discussing tokens. At any rate I couldn't help but detect a sincere and sustained interest in token collecting while talking with Clarence. A second and even a third call during the month from Clarence lent proof to my observation. The latter calls were regarding his most recent acquisition - see the classified section of this issue. While many of us collect county tokens, etc., Clarence collects Lincoln on trade tokens, Washington on the same, Good Luck Swastikas, explosive checks, odd-shaped tokens, fantasy tokens and others - see his want list on page 11 of the August issue of Trade Token Topics. It is nice hearing from the membership.

R.W. Colbert and METCA would like to extend a note of appreciation to the following organizations and groups for their helpful cooperation in making the distribution of METCA materials a pleasant task in every way: American Numismatic Association; Georgia Numismatic Association; and the Atlanta Coin Club.

Ray notes, "A special note of thanks goes to the Atlanta Coin Club for making special arrangements in providing space on their table for the display of METCA materials and to members who (as always) did their part when the need arose. I have long considered it to be a personal honor to be associated with such an active and dedicated group of numismatists and a privilege to be numbered among the ranks as a member of this outstanding club."

Thanks also goes out to Jerry Roughton, Dave Mullins, and the other METCA members and friends of Ray for their helpful assistance in many ways.

Totem Topics, quarterly publication of the Nortwest Token and Medal Society (editor - Byron Johnson) features the Community Service Bureau Scrip of Tacoma - 1933 and other cities which used the same scrip.

Totem Topics reports "Washington Territory tokens are rare. These are tokens which say W.T. on the token." The article points out that there are known territory tokens from the towns of Dayton, (one of the towns your editor collects) Centralia, Tumwater, Colfax, Seattle, Rosalia, North Yakima and Whatcom. That is not many towns from this state!

Coin World (Sept. 7th) features exonumia primer on page 36 and R.W. Colbert's listing of Georgia Merchant Tokens on page 45.

Coin World (Sept. 14th) features a picture of David E. Schenkman on page 20. David took first place (B.P. Wright Memorial Award) in Class Four Exhibit with his exhibit of "An Introduction to Civil War Sutler Tokens." Second place went to Robert W. Craigo for "New River Company Scrip and Tokens." Third place went to Mrs. Catherine T. Todd for "Type Siamese Gambling Tokens.

Page 28 features a picture of Helen L. Colbert and R.W. Colbert winners in the one-year-only Georgia Numismatics class 17. Helen took first place for her exhibit "Georgia Commemorative Medals." Second place went to Ray for "1895 Cotton States International Exposition Souvenirs."

Coin World (Sept. 21st) features an article on CWTS and pictures of Civil War Token Society President Richard Rossa, and members Steve Tannen-baum and David Schenkman (all three METCA members, too).

Page 46 continues R.W. Colbert's Georgia token list.

Page 48 features ANA exhibitors with a thorough examination of David Schenkman's first-place award for tokens in Class Four. David's prize winning display on Civil War Sutler Tokens is given much coverage on this page and it quite interesting to read. Congratulations David and all other token collectors who faired so well at ANA.

Florida FUN-TOPICS (Apr-Jun 1977) issue features an outstanding article on the Orange Belt Special (Railway Company) by C.R. Clark of St. Petersburg, Florida. Pages 8 and 9 relive this relic of the past as well as mention of the Royal American Shows (used Tampa as their winter home). They advertised the "World's Largest Midway" and used tokens in their operation (one 25¢ token shown on page 9). A token for a ½ cord of wood is also shown. Mr. Clark ties in all three items in an excellent article on Florida exonumia.

C.R. Clark has an advertisement on page 12 seeking information on Florida tokens for cataloguing purposes. His address is P.O. Box 13331,

St. Petersburg, Florida 33733.

Page 20 notes the Florida Token Society (and its meeting at Clearwater in July). FTS publishes a quarterly journal, Tokenews, which is edited by Fred T. Stanfield, 606 Stanley Drive, Fernandina Beach, Florida 32034.

Fred authors an article on Florida's Medal Mint (Fernandina Beach) on pages 36 and 37. Fred discusses different strikers of medals in Florida and then brings in the history of the medal industry in Fernandina Beach.

It has been suggested by John Mutch, Idaho collector and cataloguer, that consideration be given for a northwestern area METCA get-together sometime in the spring of 1978. With enough advance notice it might be possible to get enough members from Oregon, Idaho, Washington, Montana, and Nevada together at a central location for the five states. I would like to get some input regarding this suggestion. I would be all for it. A town like Yakima or Walla Walla would allow members from Nevada and Montana to close the mileage gap. Let us hear some ideas from you.

Back issues of Trade Token Topics are available for 2.50 a year or all five years of back issues at \$10.00. A few pages are missing out of the first five years of Trade Token Topics. A good source of information.

Many of you have not sent in your collecting interests for the membership roster. I hate to just give your name and address.

Scrip Talk notes the big day of NSCA as October 1, when the long awaited book on Coal Scrip by Don Edkins will be released. The October issue features articles on counterfeits or restrikes that are entering the coal scrip scene; the Donohoe Mail Auction Sale; News of the TAMS Atlanta Meeting; and other news items of interest in the coal and lumber field i.e., article by John R. Fliss on "How Much Should I Bid?"; and Maverick Lumber Tokens by Terry Trantow; and an article on the Coal Scuttle.

Lee Nott, your Maverick Editor, needs the cooperation of METCA members in remitting mavericks for the membership to identify. One problem we have at the moment is the submission of far too many mavericks that do not conform to the guidelines established at the outset. We hope to list mavericks that relate enough information on the token whereby we have a reasonable chance at attributing its origin.

Where are the contributions of the membership? METCA is national in its scope and sincerely interested in hearing from members from all parts of the country. We welcome articles from our Canadian membership as well. If anyone has been featured in local newspapers, etc., METCA would like to share that feature with the entire membership. Thanks to those of you who continue to support METCA with paid ads and worthwhile articles. Thanks are due to the membership who call or write in to give support to our purpose and goals.

Many are not taking full advantage of the use of the classified ad section. Every member can submit a new ad each month. Several tokens can be listed for trade purposes; it is not necessary to just list your collecting interests as members want to know what you have for trade too.

FDITOR'S ECHOES

The following is an undate on U.L.A.T.C.O. A group meeting was held in July at the home of Richard Smith of Layton, Utan, of the Utah La-Vecturist and Token Collectors Organization. Most members attended and were greatly entertained by Richard's large collection of saloon items from early Utah saloons.

The following members, Bob Harris, Roy Nulph, Phil Lavorgna, and Harry Campbell, attended the A.V.A. convention in Carson City in August, having a great time and making new friends from across the country.

U.L.A.T.C.O. members met again just recently at the home of bob Harris in Salt Lake City, Utah. A committee was formed to nut in a bid for the 1981 A.V.A. convention to be held in Salt Lake City. Uncoming events include the Utah Numismatic show where I am sure many members will search out trade tokens.

As winter months approach, we all look forward to an upswing in token business. Good Hunting! (Harry F. Campbell).

28 Sept. Coin World Highlights: (1) Page 22 features highlights of TAMS ANA meeting i.e., unveiling of the long-awaited Robert W. Julian catalog; presentation of literary and achievement awards (Among those receiving awards were Ore Vacketta, Arlie Slabaugh, Charles Littlefield, David E. Shenkman, Ken Smith, Hal Dunn, Don Stewart, Bill Fowler and others - read the article); (2) Page 33 features the Grand Central Coin Convention committee (New York) of which Irene Rauch, METCA member, and her husband, Roy, are part of the group. Irene collects Washington state merchant tokens and medals, transp. tokens, Love tokens and country music memorabilia; (3) Page 40 notes the ladies involved at ANA of which Helen Colbert, wife of Ray Colbert, was an active participant - hostess, exhibitor (first place winner at that), and other duties. Much thanks to Helen, too, for all her help with METCA activities at ANA.; (4) Page 44 features photos (get a chance to see your METCA member) of award winners at the annual TAMS meeting held at AWA in Atlanta, Georgia. Among those captured by the camera were: Ore Vacketta, Lester Davis, Charles Littlefield, David Schenkman, William Fowler, Hal Dunn, and others.; (5) R.W. Colbert's listing of Georgia merchant tokens appear on page 66.

Rumors have it that some fake Nevada and California tokens are appearing on the token scene. Parties who can identify some of these tokens might advise METCA so we can make this information available to the membership. Let us make an effort to pinch this off before it ruins things in the hobby.

In preparing a full page ad for METCA kindly use any 8% x 11 white bond or typewriter paper and and simply fill in whatever you can neatly cram on this size paper. What I do is simply use a 75% reduction scheme to economize on material usage. If you are kind enough to present a neat typed ad, please use a new ribbon or one that is dark enough for reproduction purposes. I realize many of you don't care to type (I know I don't) so present a neat copy for me to type from. This is important as it minimizes the errors that will appear in your ad from this end.

I like to use clip art, etc., to break up the monotony of just reading typed words. I try to use art work to complement the theme of the ad. I might use a theme to accentuate the state the token collector is from, the topical nature of the token collected, or a general theme dictated by the month the ad appears in. At any rate, my aim is a sincere endeavor to give you good service and make the ad an effective one. I am, after all, just a token collector with a sincere interest in keeping METCA and Trade Token Topics alive.

The Milk Man's Coming

Edward Saunders

There is one product that seems to be everywhere you go - the dairy products. They have become a part of our every day life. There aren't too many places we can go where you are not able to buy a quart of milk. In years past milk was delivered to the door on a much greater scale than it is today. Many of us go to dairy outlets today to pick up our milk, or pick up our milk when we are at the store purchasing groceries. Dairy delivery is still a thriving business, and one that is still an important business in our economy. To some people it is still more convenient to have their milk and cream delivered to their door. One sure thing we can count on is that the dairy is here to stay. We may not hear the old saying, "Here comes the Milk Man," but we often hear, "Let's go get an ice cream cone or a freeze."

The dairy is one business that seemed to ultilize the use of tokens. They had many different uses and types. Some were good for dairy products, others were for discounts on future purchases. Another use was putting them in bottles for exchange of the product desired. And last, but far from least, they were given when a bottle was purchased with milk in it, and good only when returned with bottle and token.

The dairy token has been used by large companies, and by small independent dairies. In the large cities and in rural areas. Sometimes small store selling milk would issue tokens and the townswould become known to the collector (because of the momento left behind). One such town exists in the shadowy forests lying just beneath the majestic Mt. Hood.

A man by the name of Welch had a store and sold his milk in the store. He issued four different tokens. The town was named after the man, and is only a very small community today. It has never supported a large population, however, it has a doll museum, an antique shop and a golf course. Other than this, there are just a few houses scattered among the trees. The store has been gone for a good many years, yet there are a few of these tokens issued by Welch. The tokens are inscribed, "Welch's Ranch". The town is spelled a bit differently - it is "Welches" with no apostrophe.

Another type of dairy token is that issued by schools - for the school milk programs. These were most likely sold to students and redeemed when the student got his daily milk at school. I can remember having milk in school every morning in the late 1940's. This was a common practice up through the fourth grade in the schools I attended in California. One such item I have was used in Chapman School in Portland, Oregon. The piece was a small aluminum token, about the size of a dime, and "good for" 4¢ in trade. Others are good for 1 bottle of milk. Many just say good for a half pint of milk.

Here are a few tokens used by Welch and a couple older school tokens.

The tokens used by dairies have quite a large range of appeal, from those issued by stores themselves, or those with pictures of cows, bottles or fancy designs. Guite a few of them are sade like many of the transportation tokens. Some dairy tokens have unusual wording. Others have unusual uses as to the way they were identified. One set of three pieces used in Globe, Arizona, were shaped into three different forms, as well as the cut-out. They were supposed to have been used by the Indians to tell what product they would receive. The triangle meant they could receive a half pint of cream. The heart-shaped token meant a special milk, and the five-sided token was good for a quart of grade A Pasteurized milk. Of course, we could read what the token says, but the user might not have had this advantage. He used the symbols and it worked!

There seems to be quite a difference in the need that dairies had for tokens. Some just had a simple need of the one quart and one pint tokens. I have heard of some issuing tokens for eggs. I have not seen one, but am sure they exist. Some issued them for 2%, 3% or 4% milk, and other combinations. Some used them for their fortified milk, or multivitamin brand of milk. Some needed them for butter. Cheeses are a posibility, although I have never seen such. However, I do have one good for frozen custard. There seems to be some unusual denominations among the dairy tokens - 3¢, 4¢ and 8¢ tokens. Many of them are conditional tokens, such as, good for 5¢ or 10¢ upon return of bottle, or so much on the next purchase, good only at the the store where the the token was brought, or not transferrable.

There seems to be very few collectors of dairy tokens as such. Many dairy tokens are in the collections of those who collect the entire state. On a whole, dairy tokens are fairly numerous, and quite fairly priced. I have been collecting them for sometime now, and do predict that they, too, will be much like saloon tokens. This may be a long time off, but when tokens get scarcer and scarcer, the collector is compelled to turn to another field of collecting that provides a challenge and is affordable to their incomes. So you collectors who find tokens getting harder and harder to find, and when you do, they seem to want an arm and a leg, why not consider the low dairy token. It is one that has a future. And one I think is an adventure in itself.

WANTED

LUMBER AND LOGGING COMPANY TOKENS

I also want descriptions, rubbings, postcards or information pertaining to all lumber, paper or wood-related companies. I have nearly 900 lumber tokens cataloged for future publication, but need your input. I have several lumber and merchant tokens to trade from several states, or will buy.

I'LL TRY TO IDENTIFY YOUR LUMBER MAVERICK - WRITE

I also collect all Oregon tokens, medals, badges

TERRY TRANTOW, P. O. BOX 524, ELLENSBURG, WA 98926

METCA Mempers: We nave attributed approximately 20% of the listed mayericks, but we have several to go! Please review April - Sep issues and identify those you can.

MrTCA needs new listings to add to its maverick column. The guidelines of the March issue (p. 6) still apply. However, interested contributors will no longer be limited to submitting only 5 tokens per month.

Remember, for those of you who have asked that we expand the column, we can not do so unless we have listings and token identifications to include!

THE TIP OF THE ICEBURG

As every serious token collector well knows, a token itself does not mean much unless the story behind it is also known. I was especially impressed with the quotation of A.J.N., April, 1872, used by Ernest Beerstecher in his excellent article in the August TAMS Journal: "Never let a coin lie in your cabinet that you cannot give the history of, or connect with some historical event if it be possible." Ernest did just that in his story of Latreyte and the Sample Room Token. Read it if you can!

I recently heard that a local "digger" had found a token inscribed "Mahoney" near Mackay, Idaho. Since tokens from Mackay are not too scarce and since I could not find a reference to a Mahoney in or near Mackay in my Bradstreet's listings, I didn't contact the fellow right away. I did find listings a few days later in the 1912-13 and 1916 Idaho Gazetteers for a Mrs. Alice Mahoney who operated a hotel in and was the Postmistress of Leesburg, a well-known Idaho mining camp, now a ghost town, some 90 miles north of Mackay. Having this information, I visited the digger and discovered that his find was made in Leesburg (not Mackay as I had heard), thereby convincing me that I could rightfully attribute the maverick to Leesburg (#LEE-1). Further research in Frank Schell's Idaho post office history, Ghost Towns and Live Ones, shows Alice Mahoney as the first Postmistress of the Leesburg P.O., established in 1901. Further, the former name of the town was Hunt and an Eliza Mahoney was the first Postmistress there in 1896. I have also seen an article in the Salmon City Recorder-Herald, the area paper, that Mrs. Alice Mahoney of Salmon attended a Leesburg pioneers picnic in July, 1936. It went on to say that she had spent many years in Leesburg and had owned a hotel there in early days where she was noted for her culinary ability.

That is the tip of the iceburg; there is still much more information to be found, such as: when did the hotel operate, what relation was Eliza Mahoney, why Mr. Mahoney is not mentioned, etc.

I obtained two Mahoney tokens from the digger, one for my collection, and one which I will trade for a comparably desirable Idaho token I can add to my collection. Please write me if you're interested.

The gent had several other tokens which I was happy to add to my collection, plus a car wash token from East Ely, NV, #87 on Hoskins' NV maverick list: Hansen's Car Wash. It, too, is for trade.

Please refer back to my ad on page 6 of the June, 1977 TTT. Aside from the Alaska tokens (which stirred up good interest), I still have all but #10,12, & 26. I realize that many of the remaining ones are pretty

common, so I am willing to trade for most any ID token, even ones I already have. I'll also go for multiple deals. Also for trade is an unused ice coupon book (dated 194) from the Irvington Ice & Coal Co., Indianapolis, IN. Or for you transit collectors, a coupon, Good For One Free Ride / Boise (ID) Urban Stages overprinted Expires Aug. 15, 1977. Or how about a 1945 Polk's Butte, MT City Directory? I've been promised a Pete Gussie's Blue Label Saloon / Delamar, NV token (genuine)—anybody interested?

My interests are: ID trade tokens (I am always in need of information on unlisted ID tokens or varieties of known tokens for my catalog; the Bouquet/Boise, ID is up to 45 distinct varieties, for instance); ID paper items such as script, checks, postcards, city and telephone directories, D & B listings, photographs of Idaho scenes or from Idaho photographers, advertising mirrors or whetstones, etc. Please write if you have any of the above to swap. Thank you!

JOHN D. MUTCH

TRADE TOKEN TOPICS

MONTHLY PUBLICATION FOR TRADE TOKEN COLLECTORS

MERCHANT TOKEN

COLLECTORS ASSOCIATION

19th Century Illinois Tokens
Joseph Schmidt

TRADE TOKEN TOPICS

Trade Token Topics is the official publication of the Merchant Token Collectors Association and is published monthly in Seattle, Washington. Mailing Address: 1416 Third Avenue, Seattle, Washington 98101. Bary D. Bender, Editor - Publisher. Telephone (206) 624 - 4440 Daily 9:30 - 5:30.

Trade Token Topics will be mailed on the first of each month to all members of METCA. Dues will be \$7.50 per calendar year. Every member of METCA is entitled to a free ad of four lines each issue provided it is different each issue.

Display Advertising Rates Per Issue:

Full Page - \$10.00

Half Page - \$ 6.00

Qtr. Page - \$ 4.00

Make all checks and money orders payable to METCA at the above address. Deadline for all copy is the 20th of each month.

EDITOR'S ECHOES

Note the additions to John Hamilton III's Arizona Census in this issue of Trade Token Topics.

Gary Taylor, Colorado collector residing in New York, dropped by METCA headquarters in early October at the close of his cross country vacation. Gary, Clarence Heppner, and I had a nice lunch and discussion of tokens in general. It was sure nice getting the chance to meet another METCA member.

The second part of the Trial Listing of Missouri Encased Cents by Michael and Sandra Pfefferkorn appears in this issue. The authors seek additions and contributions to this listing.

Totem Topics, quarterly publication of the Northwest Token and Medal Society (editor - Byron Johnson), features a five page listing of Tenino Wooden Money.

Received a letter from George Owen and Joseph Schmidt, Illinois exonumists, regarding their storecards that were mentioned in the Oct. 12th issue of Coin World (on page 64). These storecards were struck in late 1975 for the planned Exposition in Philadelphia which never panned out. At any rate, Coin World reader have cleaned them out of the tokens.

Joe wishes to thank all the METCA members who cooperated in his "Price Guide To Hard Time Tokens" catalog. Joe reports, "Bids representing the 183 Hard Times tokens in 12 grades were meticulously recorded using mail bid sales from a ten year period (1968 - 1977)." Furthermore he reports, "The 2,100 bids amazingly added up to over \$35,000 worth of Hard Times tokens!"

Note that the cover page of this Thanksgiving issue features some of the 19th century tokens that will appear in the "19th Century Ill-inois Tokens" that TAMS is putting out with the December issue.

Joe is still cataloguing 19th century Illinois tokens and if any reader has an old Illinois token which he would like to know if it is of the last century or not they can send him a rubbing indicating size in mm's and composition as well with an SASE and Joe will do his best to research the piece at no charge. If you send a token he recommends sending the correct amount of money if readers wish their tokens returned insured. Joe Schmidt, Box 471, Bensenville, Illinois 60106.

2

EDITOR'S ECHOES

Stephen Alpert, 11106 National Elvd., Los Angeles, California 90064, is currently working on a new comprehensive catalogue of amusement tokens (with Ken Smith as co-author). It will list the tokens by city and state as in Atwood's Catalogue. Hundreds of mavericks will be identified and much background information on the machines and manufacturers will be given. The catalogue will include the Minneapolis - St. Paul amusement tokens, and numbered tokens.

Steve would like to request that METCA members help this project by sending in rubbings of unlisted amusement tokens. All help will be acknowledged in the book, which may be finished in late 1978, or 1979.

D. Frank Elam, specializing in Civil War Store Cards and Exonumia of Illinois, writes to relate how thoroughly he enjoyed the Token and Medal Show held in Englewood, Ohio. In this issue he shares a copy of the trade check page of a 1932 National Billiard Supply Co. Catalog with METCA members. Note: no orders accepted if the word "pool" is to be imprinted on them.

Richard Magnuson, 30l Cedar Street, Wallace, Idaho 83873, is working on a project of listing all tokens bearing the following names: Jacob Strahle & Co., San Francisco, Cal. or J. Strahle & Co. S.F. Cal.; St. Germain Billiard Co. or Estate of St. Germain.

Richard seeks the help of all collectors with this Strahle-Germain project. Without the help of the Western collectors such a project would be impossible and meaningless. With your help, perhaps Richard can illustrate the scope of Strahle's business throughout the American West through the use of his tokens.

Richard is enthused about the project and "believes it has more interest in the West than the Brunswick tokens". See the project page

in this issue of Trade Token Topics.

Al Zaika states that MSCA President John Fliss reports that advance orders for the coal mine token catalog are very good and better than expected.

Received a copy of the Price Realization (PR) list for the #8 auction of Fayville Coin and Token Co. Paul F. White will be getting the #9 auction out around the first of the year. Paul, by the way, should be listed as a cataloguer of Massachusetts Trade Tokens. His address: Box 185, Fayville, Mass. 01745.

Rich Hartzog, POB 4143, Rockford, Illinois 61110, offers his next three catalogs plus prices realized for \$3.00. The next catalog features Wisconsin Civil War Tokens and Masonic Chapter Pennies (closing date being November 28, 1977).

Johnson and Jensen, 8 Briar Ridge Road, P.O. Box 1085, Danbury, CT 06810 offers a fall listing of commemorative and fine art medals for sale at fixed prices.

Mount Hope Numismatics (Bill Chance) offers a five page fixed price list of Civil War Tokens. Write: Mount Hope Numismatics, Old Bank Building, Mount Hope, Kansas 67108.

The Fare Box, September 1977, features AVA editor's John Coffee, Jr. and AVA happenings at Carson City, Nevada; ULATCO news by Roy Nulph; The AVA at ANA by George Cuhaj; AVA Convention Minutes; Results of the AVA Convention Auction; Auction of Tokens from the Harry Strough Estate; and other features.

The cover design of the October issue of Trade Token Topics was the brainstorm of Ed Saunders of Oregon. Authoring the dairy article, Ed designed the milk bottle of tokens. I failed to give him due credit.

EDITOR'S ECHOES

Highlights of the Oct. 5th issue of Coin World: (1) page 16 - Class 15 Award Winner featuring an exhibit entitled "In Memoriam, Tenino's 'Wooden Dollar' Honoring Calvin Coolidge." (2) page 16 - Class 17 Award Winner Helen Colbert for her exhibit "Georgia Commemorative Medals." (3) page 20 - Photos of Love Token Society at ANA (4) page 21 - Photos of SRTC (Society of Ration Token Collectors) at ANA (5) page 25 - informative article on California gold tokens (6) page 25 - Exonumia Primer (7) page 30 - R.W. Colbert's Georgia Merchant Token List (8) page 50 -Youth F orum article featuring exonumia as an option to those who want to collect numismatic related items. The article by Kevin Kruse hopefully will fall on on the shoulders of the young as our hobby needs the young collector to sustain further growth. (9) page 50 - Exonumia list by Stan Steinberg (10) page 50 - Exonumia List by Williges, P.O. Box 445. Wheatland, Calif. 95692. (11) Exonumia Round-up on page 52.

Highlights of the Oct. 12th issue of Coin World: (1) page 40 -Douglas Robins, Inc. has announced the recent acquisition of a collect ion of fur trading, Hudson's Bay Co. and other rare Canadian tokens and related material. Canadian token specialists may get a complete list of this offering by writing Douglas Robins, Inc., P.O. Box 823-C, Corvallis, Oregon 97330. (2) page 50 - Roland Atwood, transportation token cataloguer, was awarded an honorary life membership in the California Association of Token Collectors during their 20th anniv. celebration. (3) page 59 - Western Token Ledger is the new name of bimonthly publication of WESTS (Western States Token Society) edited by Stephen Album. Formerly called California - Nevada Token Society the latest publication features William Williges' discussion of Marysville, Calif. token issuers, Leon Hubbard's description of Stillwater, Nevada; hotel tokens and Ed Saunder's tale of hunting for those elusive issues. Info on WESTS is available from Hal V. Dunn, P.O. Box 114, Carson City, Nevada 98701. (4) page 59 - picture of METCA's ANA token designed by Ray Colbert, Georgia exonumist and cataloguer. (5) page 60 - Georgia Trade Token List by Ray Colbert. (6) page 61 - Wooden Money Round-up with Tenino (Wash) Society honoring wooden money signers. (The Society had their yearly show in late September in Tenino and many METCA members from Seattle attended the program). (7) page 64 - Joe Schmidt and George Owen report storecards made.

Highlights of Oct 19th issue of Coin World: (1) page 28 - Durst to reprint Lyman Low's 1900 standard catalog on Hard Times Tokens, including the 1906 Low supplement. (2) R.W. Colbert's Georgia Token List. (3) Ray and Margaret Byrne's traditional token at ANA - a good for one round trip elevator ride at the Atlanta Marriott.

Highlights of the Oct. 26th Coin World include: (pg. 3) write-up of the Englewood, Ohio, token show and Toronto transit token problems; pg. 22 - Herbert Weiss mail bid sale; (pg. 49 - Georgia Token List by R.W. Colbert: and pg.51 suggets pay toilet token-usage.

TAMS Journal Highlights of Oct 1977 Issue: (1) An Introduction to Hard Rubber Tokens by David E. Shenkman; (2) Maverick Section -Lew Ferguson; (3) Herbert Weiss Mail Bid Sale; (4) Louis H. Waldman Fixed Price List; (5) Kent D. Johnson's article on The Swenson Brothers Merchant Tokens; (6) George Delfico's Mail Bid Sale; (7) Randy Chamber's South Carolina

Token Catalog; and (8) Encased Postage Store Cards by Don T. Thrall.

A few more comments under this section appear in the last part of the classified section.

Those interested in the formation of an Ohio exonumia organization should contact Gaylor Lipscomb, 5010 Winton Road, Fairview, Ohio 45014.

Memo regarding old coin systems used on the Atlantic Coast of Nicaragua.

Some members of my family, all born in Sweden, emigrated to the Atlantic Coast of Nicaragua at the end of the last century. Some of them later returned to Sweden, but some stayed for the rest of their lives.

My father August Brautigam (1871-1970) lived on the Coast from 1883 to 1897 but then returned to Sweden, in 1903 he founded in Gothenburg an agency

for Remington Typewriter Co. and got married. I was born in 1910.

When my father first went out he was accompanied by an uncle who had settled down on Corn Island, probably already at the end of the 70th. From 1891 to 1904 four brothers and two cousins joined August and his uncle. When they first came out to this area it was called The Mosquito Reservation, belonged to Great Britain and was governed from Jamaica with a British Consul residing in Bluefields. On several occasions Nicaragua claimed the right of the territory and on February 12, 1894, Nicaragua took over in Bluefields and the area was given the name of Departamento Zelaya.

My father has given a report from his life on a tape recorder which gives many details of interest of the hard life in this remote and hidden territory. August Bräutigam and his uncle, J.A. Petersen, were engaged in all sorts of business activities. Petersen first on Corn Island and from about 1885 with assistance from August in Pearl Lagoon. One period August

had his own business in Pearl Lagoon and Petersen in Bluefields.

Before 1894 the Mosquito Reservation had no monetary system of its own but for business purpose they accepted all types of gold and silver coins and their values were estimated by weight and fineness. They received coins from the U.S., from Great Britain and from different Latin American countries. August is mentioning that they ordered from the mint in New Orleans, La, Mexican Silver dollars delivered in bags and they sent back bags containing all sorts of odd coins of gold and silver to be melted. The Mexican silver dollar had the value of half the U.S. dollar, the latter being of too high a value to suit the local market. Is it possible to verify some of this information through some other source? The area was at that time English speaking andthen it was natural that they did not use the Spanish word peso. Can it be verified that there was a mint in New Orleans and how did they get the bags containing 100 Mexican dollars in silver coins? If there was no mint could it be a sales agent?

When Nicaragua took over in 1894 the monetary system was changed. The language used in the letters between the brothers and cousins was mostly English, sometimes mixed up with Swedish but never Spanish. In a letter from 1899 they talk of Sols as being the money in use, but they often use the U.S. dollar, especially in foreign trade and for all important business. The letter says that "the paper money has gone down to 285-300, cannot get any exchange for paper, and not one Sol to be seen". A letter from 1914 says that "the Sol was proclaimed no good and that the Cordoba was introduced----the silver Cordobas do not cost more than a Sol to make but pass for one dollar gold----".

In addition I will mention that J.A. Petersen issued a token of 5 cents to be used in Pearl Lagoon, probably by the end of the 1880th. It shows on the adverse the name J.A. Petersen and Pearl Lagoon and on the reverse the

figure 5. To my knowledge there is only one kept.

The extracts mentioned above give details and it would be of interest for me to find, if possible, literature which can give a more complete picture of the monetary systems mentioned above and I should appreciate all information that could give an answer to my question.

Gothenburg, Sweden, in September 1977. Olof Bräutigam, Box 34019, S-400 34 Goteborg, Sweden

LOUISIANA CHURCH TOKEN By Glyn V. Farber METCA #631

The rubbing illustrated above is an aluminum token from Eunice, LA. This token originated in the mid-30's, at St. Anthony's Catholic church, when the practice of Pew sales was abolished in the diocese of Lafayette. Pew sales were used for the purpose of raising funds. Church members would bid on pews for themselves and their family.

When the sale of pews was discontinued the pastor of St. Anthony's Church, Monsignor A. Martel and the parish council determined that instead of Pew sales they would institute a charge of 10¢ at the door of the church. Members would then be free to sit wherever they wished in church. However, it was soon evident that many families especially those with many children could not afford the dime at the church door due to the depression.

One of the parish council members came up with the idea of issuing a dime token. Tokens were picked up before mass at the Rectory by families who could not afford the $10\mathfrak{e}$. This way the poor of the parish merely dropped their tokens at the door and need not be embarrassed by not having the necessary money.

This practice was continued for approximately fifteen or sixteen years, until the envelope system of contribution was instituted.

I would like to acknowledge the fact that all the information in this article comes from Mr. Avit Bordelon, long time member of St. Anthony's Church as related to C.J. Bernard a Eunice resident.

Approximately 20 of these tokens were found in the Rectory at St. Anthony's Church by Mr. Bernard. He has several left and may be contacted at: 240 West Vine Ave., Eunice, LA. 70535. He is asking a price of \$15.00.

HEPP'S WANT LIST OF WASHINGTON STATE MERCHANT TOKENS Clarence E. Heppner, 203 Jones Bldg., Seattle, WA 98101 Town and state on token desired; list what you have and wait for my offer.

Allyn, Ashford, Buena, Bridgeport, Beaver, Bordeaux, Beverly, Burbank, Row, College Place, Coupeville, Clayton, Custer, Cunningham, Creston, Connell, Clear Lake, Carnation, Cumberland, Dennison, Dishman, Dupont, Duvall, Deming, Easton, Everson, Electric City, Eltopia, Ewan, Ford, Frances, Fallbridge, Grotto, Gig Harbor, Galvin, Hanford, Hoodsport, Hooper, Hadlock, Hockinson, Hobart, Harrah, Inchelium, Ione, Kiona, Kettle Falls, Klikitat, Kititas, Loomis, Lyman, Long Beach, La Center, Lincoln, Lamont, Mead, Monohan, Mayfield, Marcus, Mason City, Machias, Mesa, Malone, Moxee City, Matlot, Moclips, Metaline Falls, Malott, New Castle, Napavine, Naches, Neah Bay, Northport, National, Orting, Outlook, Oso, Potlatch, Porter, Prescott, Pateros, Pataha, Paha, Quilicene, Richland, Roy, Ryderwood, Ruff, Retsil, Rochester, Ridgefield, Republic, Ravendale, Roosevelt, Satsop, Salkum, Tumwater, Three Lakes, Taholah, Twisp, White Bluffs, Wilkeson, Wallula, Youngstown, Valley, Zillah and Winona.

The Seattle Times, Sunday, June 26, 1977 (newspaper) featured an article entitled "Ballad of A Born-Again Bar" by Kathleen A. Warrington

(text) and photographed by Roy Scully.

I will glean the parts I feel Montana token collectors will appreciate. Check with your local out of town newspaper dealers if you wish the entire article with several pictures. I will try and secure a few copies of the article for those collectors interested in it - Editor.

"Rescued from the cold hand of progress, the old Montana Hotel bar lives again in Seattle's newest restaurant - Lion O'Reilly's and B.J.

Monkeyshine's which opened May 27."

"The bar, massive solid oak, replete with intricately handcarved columns and sizeable lead glass mirrors, is a proud remnant of the old west, when men were men and ladies weren't allowed in bars."

"It was brought from Anaconda, Montana by local restauranteurs... who outbid eager buyers nationwide, including a Las Vegas Victoriana authority who rates the bar as 'the finest I've ever seen' and 'a 10 on

a scale of 1 to 10."

"A classic example of the Victorian Romanesque Revival architecture popular in the 1880s, the hotel revolved buildings of the same-style and vintage built in Seattle's Pioneer Square."

"Everything about the old Montana Hotel was built to last. The bar is no exception. Constructed in 1889, the massive four-story, 125-room red brick "castle" was a dream of fabulously rich Anaconda copper king

Marcus Daly."

"Anticipating Anaconda might become the capital of Montana, he spared no expense in constructing a fitting social center for the statesmen and legislators he envisioned. But that day never came."

"Modeled after the Hoffman House Bar in New York City, the bar was overbuilt for Anaconda from the beginning. Some suggest Daly built him-

self a monument..."

"Acquired along with the bar were Tiffany glass windows and a solid oak entry foyer with exquisitely etched and beveled leaded glass panels, and a Tiffany chandelier so brilliantly majestic it would overpower anything but the massive ornate bar..."

ICHARD L AINSWORTH, BOX 42279, LAS VEGAS, NEVADA 89104

In the late 1800's, there was a billiard manufacturer in San Francisco by the name of Jacob Strahle. His firm, JACOB STRAHLE & CO., had tokens struck for use by its customers.

Some of these tokens depict a pool table and others do not. On a few of them, the words:

Jacob Strahle & Co. San Franciso, Cal.; or J. Strahle & Co. S. F. Cal.

appear in very small lettering near the edge of the token to show the manufacturer's name.

Apparently this firm was taken over by the ST. GERMAIN BILLIARD CO. in later years. There was also a time when a few tokens were struck bearing the name of ESTATE OF ST. GERMAIN.

I would like to prepare a listing of all tokens bearing any of these issuers' names; and I ask your help in this search.

If you have any such tokens in your collection or can get such information elsewhere, PLEASE send the vital statistics on these tokens to me.

I would like to obtain rubbings of both sides of these tokens and the following:

Size:		LOOK
Metal:	S. T. T.	110011
Denomination:	1.6	
Shape:		
Tanania manas		

If the token does not give the location of the issuer, perhaps you can shed some light on attributing it.

Thank you for your assistance and I hope that we can work together preserving this information.

Richard Magnuson 301 Cedar Street Wallace, Idaho 83873

Yours very truly,

Lick Magneson

COLLECTOR OF ALABAMA TRADE TOKENS - COAL, LUMBER, TEXTILE, SALOON, DRUG, PRISON, GENERAL MERCHANDISE

BINGLES!!!

WANTED: Bingles, Bingles, and more Bingles (Alaska Trade Tokens. I also wish to purchase or trade for obsolete Alaska Stocks & Bonds; misc. documents: etc.

- (1). I recently acquired several copies of the <u>first</u> edition of "Alaska's Coinage Through the Years" (THE Black Book, copyright 1960), by Gould and Bressett. No Alaska Token collector can afford not to have a copy of the Alaska "Black Book" in his/her personal library (It contains lots of good stuff that wasn't incorporated into the larger, Second Edition ("Green Book)). Copies of the Black Book have sold recently for more than \$20.00.
- (2). I have several new, Unsmoked, hand—carved Meerschaum pipes (Golly See, they're real beauties!), the pipes retail for \$65,00 to \$75.00 (Figher in some areas of the country).

I will trade a copy of the above "Black Book" or a Meerschaum pipe for those Alaska Trade Tokens of equivalent value that I need for my collection.

In the event that these items appeal to you - all that have the trade token that I need - please furnish description of token(s); Stocks and Bonds; etc., and trade requirement/asking price of the item(s) offered. Postage will be refunded in all cases. Send correspondence to:

MaverickEditor

During the summer, I purchased a maverick token, from a dealer in Wyoming. It was a token of C. F. Hampton, good for $12\frac{1}{2}$ in trade. The token was 24mm. alum. with LARSCO, on obverse, near the bottom. The dealer told me that a roll of them had been dug up in the old dump in Mina, Nevada.

Blaine Simons, checking old directories, found Hamptons in Reno, Tonopah and Wadsworth, but none in Mina. Len Hoskins did some checking, but did not find a C. F. Hampton. In checking with Mrs. Georgia Dunham, Postmistress of Mina, she replied, "I have been contacting the "old timers" around here, but no luck to date. "She referred me to Nevada State Historical Society.

Guy Louis Rocha, Curator of Manuscripts, for the society, informed me that he had checked all their finding aids and could find no reference to a C. F. Hampton ever residing, or operating a business in Nevada.

Who can solve the mystery? Who was C. F. Hampton? Where was his business located? How did the roll, of his tokens, find their way to Mina, Nevada? If you can answer these questions, I would appreciate hearing from you. Clarence E. Ziegler, 2705 Grace Rd. Port Huron, MI 48060.

WANTED TO BUY: COLLECTIONS OF

TRANSPORTATION and PARKING
TOKENS

Large or small amounts. All letters answered. Especially need **Missouri Tokens**.

TRADE CHECKS

Raised Letters. Name on one side. Amount Check is good for on opposite side.

No checks shipped unless full amount is paid in advance. The prices are for checks with one style lettering only. When more than one style of lettering is ordered the charge will be based on the price per hundred and not on the quantity price. Send money with Order and deduct 5 per cent discount for Cash in Advance. No orders accepted for trade checks if the word "Pool" is to be imprinted on them.

Had nice conversations with Lee Nott and Michael Pfefferkorn this month.

Had a nice visit from the Dethriges from Alaska. It had been a long spell since their last visit. I managed to sign them up with NETCA while they were here and catch them up on the new Alaska members we have. Perhaps we can stimulate a sorely needed update on the many unlisted tokens from "Seward's Icebox."

EDITOR'S ECHOES

Please note that the <u>address</u> for METCA has changed. I will continue to handle the affairs of METCA at my place of residence. This will be effective immediately, so kindly direct all correspondence for all future issues of Trade Token Topics to my home address (as noted above). This change is necessitated as my working arrangement with Rare Coin Galleries of Seattle will be dissolved at the end of December. I don't anticipate this action as having any bearing on my duties as editor of Trade Token Topics.

As this year comes to an end I trust your Thanksgiving was the kind that Mother used to make. On behalf of METCA I wish you the merriest kind of a Merry Christmas And the happiest sort of a Happy New Year. I feel we have come along way this year after the year long absence of METCA in 1976. I have tried to make this publication a viable, personal one, responsive to the collective interests of the membership. I have visions of bigger and better things for METCA in 1977 - ideas I will share with you in a later issue. I would like to hear your ideas. METCA needs and wants the input of its membership. At this time I would like to acknowledge those of you who have sent letters and cards of encouragement and support. In closing, I wish to extend warm and gracious greetings during the holiday season and new year to come.

1978 METCA DUES ARE DUE. \$7.50 will get you a monthly publication for the entire year. Thanks to all of you who have sent in your dues early. I foresee a growing membership for METCA in 1978.

Terry Trantow, Lumber Token Cataloguer, reports that this issue will be your last to add lumber tokens to his listing. The manuscript goes to the printer in December. See his classified ad.

It is with a great deal of joy that I report that Chriss Christiansen, P.O. Box 651. Cupertino, CA 95014, is anxious to get back into the collecting hobby. As you probably knew Chriss has gone through eleven serious operations in the past couple of years, sold most of his tokens and medals, and was burglarized of the balance plus a considerable sum in coins. Chriss reports that he has really missed the hobby as every token has a story. He says hi to everyone, thanks you for your friendship, and wishes to resume correspondence.

Regarding Charles V. Kappen's latest book, <u>California Tokens</u> - the index got out of order after it left the author's hands hence TAMS is addressing the problem and will make an announcement soon to rectify the problem. Without making any hasty comments, METCA will await Clifford Mishler's definitive announcement on the Index.

Regarding reviewing some of the latest exonumia catalogs, etc. I think many cataloguers can benefit from constructive criticism from the membership. As editor I am not so much interested in criticizing completed works as I am in encouraging new works. It is imperative in any cataloguing effort to have the complete cooperation of the token fraternity. Divisiveness only makes the task at hand more difficult. We need new works in the exounumia field and I think cataloguers are to be encouraged, not stifled in their efforts. At the same time, I think cataloguers have certain obligations to the membership. Progress reports (like Trantow's on lumber tokens, Mutch's on Idaho tokens, and Hamilton's on Arizona) are useful. Acknowledgements and letters of appreciation are appreciated. Sharing knowledge during the period of cataloguing is necessary. Many of the efforts constitute long periods of time (even many years in some cases) so a general report or courtesy dialogue with the membership is invited. Much can be accomplished by the catalogue in terms of a better end product if he/she will share some phases of their efforts before publication deadline. It seems to me that &a lot of the heavy criticism leveled at the end can be avoided to some extent by the constructive criticism offerred by the readers and buyers of the product before it is completed. This can be accomplished by progress reports, etc.

Harry Lumbert, Island, Skagit, Whatcom and Snohomish county collector, (Washington state) brought to METCA headquarters three interesting stencils for display. The stencils were used to mark graded shingle bundles. The stencils were for lumber camps in and around the area Harry lives. What makes them so interesting is the fact that they are from small, scarce towns. The brass stencils were made by C.A. Griffith Co., Bellingham, Washington. They included two Hansen Shingle Company stencils from Glacier, Wash; one for No. 2 Shingles and the other for Premium No. 1 Shingles. The third stencil was from the Alger Shingle Co. Blue Canyon, Wash., for marking Standard A Shingles. Thanks to Harry for sharing this information with the membership.

Dick Grinolds, Minnesota exonumist, 627 Polk St., N.E. #9, Mnpls, Minn. 55413 features an outstanding fixed price list of over 600 exonumia items. The listing features recent buys and some purchases from the successful token and medal show put on by Gay Lipscomb in Englewood, Ohio. Dick reminds collectors that all the items on his

list are available in trade for Minnesota items he can use.

Gary Pipher, New York exonumist, has recently joined T.M.C. Coins, Inc. of Johnson City, New York, at 455 Main St. 13790. Gary will handle the firm's mail order dept. as well as offer medals and tokens thru media announcements and fixed price lists. Photo and story appear on page 58 of November 2, 1977, Coin World.

METCA member Bruce Smith has opened a new stamp, coin, and antique shop in Steven's Point, Wisc. Bruce has named his shop The Second Street Flea Market. Much success to Gary and Bruce in their new endeavors.

The Nov. issue of Treasure features another fine article on Arizona merchant tokens in the collection of John T. Hamilton III. The article appears on pages 10-15. The cover page shows many nice Arizona tokens and many nice photos adorn the interesting article.

Pages 36-39, and 49 features Apache Indian War Relics - a token from Fort Huachuca, established in 1877, shown on page 37. This article appears in the November issue of Treasure, too. Token colle ctors should enjoy both articles.

Josef Smith, Alaska token collector, drew my attention these two articles.

John Mutch, Idaho cataloguer and collector, reports that the Southern Idaho Coin Show was represented by METCA members, Birney Powell, Len Hoskins, Gene Kirschten, Hugh Hartman, and himself.

John, by the way, took first place in the token and medal category for his display of tokens and photos (mainly postcards) of the business they came from.

John reports that METCA members, Mike Fritz, Idaho token collect or, and Darrel Pierce, Oregon, especially Baker and Grant County collector, recently tied the matrimonial bonds. METCA wishes the two members and their new brides all the happiness in the world.

Had a nice conversation with Rich Hartzog, Illinois exonumist, the other day. Rich puts out one of the finest sale lists and exonumia mail bid auction catalogues around. Dealing in Civil War Tokens, HTT, tokens, medals, amd misc. exonumia, Rich's catalogs are worth sending for. Inquire at: POB 4143, Rockford, III. 61110.

METCA member, Lloyd Wagaman, Indiana exonumist and cataloguer, was awarded a plague at ANA from TEC (The Elongated Collectors) was awarded a plaque at ANA from TEC (The Elongated Collectors) for the best coin rolled during the year 1976. Lloyd designed, engraved and rolled a 2½" half dollar with a Bicentennial year calendar on it. Lloyd was also one of 12 TEC members presented the Merit Award Coin for outstanding 1976 contribution to TEC. The award coins were designed and rolled and donated to TEC by Wagamam. Article appears on page 62 of November 16, 1977 Coin W.

The American Tax Society article on page 35 of Nov. 16, 1977 Coin World besides being informative invites those to join at \$3.00 annually. Wrote George Van Trump for an application at P.O. Box 10656, Edgemont Branch, Golden, Colo. 80401.

10656, Edgemont Branch, Golden, Colo. 80401.

The same issue gives information on ordering Jerry Schimmel's 1973 guide book and Jerry and Mike's (Pfefferkorn) new book, Chits, Chiselers, and Funny Money. ************

****WANTED WYOMING TOKENS****

THE TOKENS LISTED BELOW ARE FOR TRADE FOR WYOMING MERCHANT TOKENS. I WILL ALSO CONSIDER TOKENS FROM THE FOLLOWING STATES: COLORADO, UTAH, IDAHO, NEVADA, ARIZONA, NEW MEXICO, TEXAS, AND NEBRASKA. CASH OFFERS WILL ALSO BE CONSIDERED, BUT TRADES WILL HAVE FIRST PRIORITY, ESPECIALLY ON WYOMING TOKENS THAT I CAN USE.

ANNOUNCEMENT

METCA

Takes great pride in featuring an outstanding selection of Pacific Northwest Merchant Tokens.

This varied and valued collection is offered by:

McTy & Stevens Coin Shop West 506 Sprague Spokane, Washington 99204 (509) 747-4490

MAIL BID SALE

We offer the following lots of very interesting Northwestern material. MANY ITEMS ARE RARE AND SOME ARE PREVIOUSLY UNLISTED. Most of them are in very fine or better condition and most have some of their original lustre. We have some duplicates, and you may become a successful bidder without being the highest bidder. All tokens are round unless otherwise noted. Usual rules apply; and tie bids will be awarded to the highest bidder with the earliest postmark. Successful bidders will be notified and billed at the end of the auction. Because of the busy holidays ahead, we have set the CLOSING TIME FOR BIDS as 5:00 p.m. on January 10th, 1978. In order to be fair with all bidders, any bids received after such time will not be considered in the determination of the highest bidder in this sale. - The following are not verbatim descriptions. MINIMUM BID= \$1.00

```
1. Ft. Wright, Wash. - POST EXCHANGE 10¢, scall.8, alum, Rare.

```

You are advised to look this list over very carefully. IT MAY BE THE FIRST AND LAST TIME YOU MAY EVER HAVE A CHANCE TO BID ON SOME OF THESE TOKENS. We have been unable to locate some of these towns on the maps available to us. This is the first time we have seen many of them.

We have duplicates on about 75 of these lots. On these, you may be a successful bidder without being the highest. However, you can be sure there are no duplicates on the rarer lots; so bid accordingly.

Please check your bids over carefully before sending them to:
